Final
Environmental Assessment
of the
Eagle Butte Coal Lease Application
as applied for by AMAX Land Company
(Federal Coal Lease Application WYW124783)

EA # WY061-3EA106

Prepared by

Casper District
Bureau of Land Management

Cooperating Agency:
U.S. Office of Surface Mining Reclamation and Enforcement

June 1994

TABLE OF CONTENTS

SUMMARY vi

I. INTRODUCTION 1

A. Purpose and Need 1
B. Conformance with Land Use Plan 4
C. Relationship to Statutes, Regulations, or Other Plans 7
D. Public Participation 13

II. PROPOSED ACTION AND ALTERNATIVES 14

A. Alternative No. 1: Sale of Lease as Applied For To Be Mined With Existing Mining Operation 14
B. Alternative No. 2: Sale of Lease as Amended By BLM To Be Mined With Existing Mining Operation 18
C. Alternative No. 3: No Action Alternative 19
D. Alternatives Considered But Not Analyzed In Detail 19
1. Alternative No. 4: Sale of Lease for a New Stand-Alone Mine 19
2. Alternative No. 5: Postpone Lease Sale 21

III. AFFECTED ENVIRONMENT 23

A. General Setting 23
B. Affected Resources 26
1. Geology and Topography 26
2. Water Resources 32
a. Ground Water 32
b. Surface Water 35
c. Alluvial Valley Floors 36
d. Wetlands 36
3. Soils 37
4. Vegetation 39
5. Ownership and Use Of Land 40
6. Wildlife 42
7. Cultural Resources 47
8. Native American Consultation 48
9. Paleontological Resources 48
10. Visual Resources 49
11. Noise 50
12. Air Quality 50
13. Transportation Facilities 55
14. Socioeconomics 57

TABLE OF CONTENTS
(continued)

IV. ENVIRONMENTAL IMPACTS 63

A. Impacts of the Proposed Action--Leasing With Alternatives 1 or 2 63

1. Geology and Topography 63
2. Water Resources 65
   a. Ground Water 66
   b. Surface Water 70
   c. Alluvial Valley Floors 72
   d. Wetlands 72
3. Soils 72
4. Vegetation 74
5. Land Use 75
6. Wildlife 76
7. Cultural Resources 77
8. Paleontological Resources 78
9. Visual Resources 78
10. Noise 78
11. Air Quality 79
12. Transportation Facilities 81
13. Socioeconomics 82
14. Hazardous Waste 84

B. Impacts of Alternative No. 3: The No Action Alternative 84
C. Regulatory Compliance 85
D. Mitigation Measures 87
E. Residual Impacts 87
F. Cumulative Impacts 88
   1. Actual and Predicted Coal Activity in the Wyoming Powder River Coal Region 90
   2. Cumulative Impacts Related to Existing Surface Coal Mining Powder River Basin of Wyoming 94
   3. Water Resources 98
      a. Ground Water 98
      b. Surface Water 107
   4. Air Quality 108
   5. Socioeconomics 111

V. CONSULTATION AND COORDINATION 116

VI. REFERENCES 118

VII. FINAL EA MAILING LIST 129

APPENDIX A. COMMENT LETTERS ON THE DRAFT EA AND RESPONSES A-1

APPENDIX B. POTENTIALLY IMPACTED GROUNDWATER RIGHTS ADJACENT TO THE EAGLE BUTT MINE B-1

LIST OF FIGURES

Figure 1. General Location Map of Eagle Butte LBA Tract 2

Figure 2. Detailed Location Map of Eagle Butte LBA Tract 3

Figure 3. City of Gillette Buffer Zone 6

Figure 4. Eagle Butte LBA Area Drainage Names 27

Figure 5. Generalized Stratigraphic Chart for the latest Cretaceous and Early Tertiary, Powder River Basin, Wyoming 28

Figure 6. Ownership Map of Eagle Butte LBA Tract 41

Figure 7. Wildlife Features of Eagle Butte LBA Tract and Vicinity 45

Figure 8. Relationship Between A-Scale Decibel Readings and Sounds of Daily Life 51

Figure 9. Transportation Resources in Vicinity of Eagle Butte LBA Tract 56

Figure 10. Location of Existing and Proposed Coal Mines in Campbell County 89

Figure 11. Comparison Between 1990 Cumulative Drawdowns and the Mines' Worst-case and the USGS Predicted Cumulative Drawdowns 103

LIST OF TABLES

Table 1. Powder River Basin Coal Leasing Summary 5

Table 2. Validation of Leasing Unsuitability Criteria for Eagle Butte LBA 8

Table 3. Federal and State Permitting Requirements and Agencies 12

Table 4. Soils Series/Map Units and Their Approximate Acreage on the Eagle Butte LBA Tract 38

Table 5. MBHFI Status in Northeast Wyoming and Expected Occurrence Near Eagle Butte 46

Table 6. Status of Known Cultural and Paleontological Sites Within the Eagle Butte LBA Tract and Proposed Permit Extension Area 48

Table 7. Regulated Air Emissions for Wyoming 52

Table 8. Maximum Allowable Increases for Prevention of Significant Deterioration of Air Quality in Wyoming 53

Table 9. Summary of Air Quality Monitoring in Wyoming's Powder River Basin, 1980-1988 54

Table 10. Housing Availability in Gillette, Wyoming, October 1992 58

Table 11. Historic and Projected Coal Production for Wyoming and Campbell County 59

Table 12. Labor Force Data for Selected Years for Wyoming, Campbell and Crook Counties 60

Table 13. Local Disbursements for Campbell County and Gillette for Selected Years 61

Table 14. Mine Sites Addressed in Previous Regional EIS Analyses 92

Table 15. Cumulative Regional Activity, Eastern Powder River Basin Coal Region 93

Table 16. Cumulative Surface Disturbance, Employment and Population-Actual and Predictions without the Lease-By-Applications, Eastern Powder River Coal Region 93

Table 17. Particulate Concentrations by Mine in the Eastern Powder River Basin as Projected for 1990 and as Measured for 1990 for the Annual Ambient Air Quality Standard 109

Table 18. Particulate Emissions by Mine in the Eastern Powder River Basin as Predicted for 1990 and as Estimated from Actual Mining Activity for 1990 110

Table 19. Crime in Campbell County, 1980 and 1991 113

Table 20. Marriage and Divorce Rates in Campbell County, 1980 and 1989 114

Table 21. Birth and Death Rates in Campbell County, 1980 and 1990 114
