

LR2000 Geographic Supplemental Report

This report is an historical summary of select case transactions (action code driven). This report should not be construed to be an automated Historical Index (HI).

The report prints cases in the selected township and shows the following information: section, aliquot, survey type, survey number, case acres for case recordation cases, total acres in the township for status cases, system id, serial number, reference number, action date and action.

Cases are selected if they have land within the township, are in Case Recordation or Status and have one of the required actions (see table below) and are not oil/gas agreements (318XXX).

Limiting criteria include Geo State (optional), Meridian, Township and Range.

You may limit your selection based on MTR or a combination Geo State and MTR.

If you select a Geo State, the pick list for Meridian, Township and Range adjusts to only those valid for the Geo State selected.

When meridian is entered, the pick list for Township and Range adjusts to only those valid for the meridian selected. You must select the Meridian, Township and Range from a pick list and in order by Meridian, then Township and finally Range

Action codes used to extract data from Case Recordation for this report are as follows:

Action Code	Action Code Text (CR)
200	CANCELED IN PART
209	CASE CREATED BY SEGR
234	EXPIRED
235	EXTENDED
238	LEASE MODIFIED-AMENDED
271	PATENT ISSUED
276	PMT-LIC ISSUED
272	PATENT CANCELLED
307	ROW GRANTED-ISSUED
312	RELQ (PARTIAL) FILED
553	CASE CREATED BY ASGN
620	QCD-DISCLAIMER ISSUED
700	LEASE SEGREGATED
705	ORDER ISSUED
804	WDL REVOKED
855	CLEAR LIST APPROVED
865	TITLE ACCEPTED BY US
868	EFFECTIVE DATE
873	OPEN TO ENTRY

Action codes from Status

Action Code	Action Code Text (ST)
001	APLN RECD/CASE ESTABLISH
220	DATE OF ACTION-HIST INDEX
317	ORDER ISSUED
736	LITIGATION FILED
864	CLEAR LIST APPROVED
868	DEED SIGNED
879	PATENT ISSUED
880	PATENT CANCELLED

LR2000 Geographic Supplemental Report

Limit by Geo State: (optional)

Meridian: Township: Range:

Please select meridian, then township, and then range.

Step 1 - Clear All Selection Criteria

Click "**Reset**"

If you just ran a report for a specific township and you just want to change the township number or range number then you can just click on the down arrow for that field and change the number and hit submit. If you hit the reset button, then all fields will need to be reselected.

All Systems Geographic Supplemental Report

Step 2 - Set All Limiting Criteria

Click "**Down arrow next to State**" (A pick list will appear)

Select desired state from list. (This is not a mandatory field)

Click "**Down arrow next to Meridian**" (A pick list will appear)

Select desired meridian from list.

Click "**Down arrow next to Township**" (A pick list will appear)

Select desired township from list.

Click "**Down arrow next to Range**" (A pick list will appear)

Select desired range from list.

Step 3 - Process Report

Click "**Submit**"

When processing is completed the banner page will appear in the report frame as shown below. The banner page shows the township that was requested and includes a translation table for the casetypes and survey types that were used for the cases.

Click "Report" in the sections area to display the report.
