

LLD Summary Report

Menu Option: Pub LLD Summary Report

Purpose: This report lists the legal land description by Meridian, Township, Range (MTR) or Meridian, Township, Range, and Section (MTRS).

The MTRS report displays the survey type, survey number, survey number suffix, subdivision, acreage, and geo-political data, along with a total acreage for the section(s) requested.

The MTR report displays data including Geopolitical Data for each of the 36 sections, plus a total acreage for the township. If more than one MTR is requested in the report, the total acreage will be for all townships not individual townships.

It is necessary to know what legal description you need prior to requesting this report

Selection Criteria: The criteria input for the report is found in the Public Legal Land Description Reports menu grouping from the Reporting Application

The required criteria include administrative state and either Meridian/Township/Range code or Meridian/Township/Range/Section code.

Geographic state is an optional criterion that can be used to produce the report.

1. Select **Pub LLD Summary Report** from the reporting menu.

The screenshot shows a web form titled "PUB LLD SUMMARY REPORT (LR2000 PUBLIC REPORTS)". Below the title is a blue bar with the text "Please Choose Which Criteria You Would Like to Filter On". At the bottom is a blue button labeled "Select Criteria".
