Dear Sirs:

G-1
EG-6-1

After perusing the Environmental Impact Statement that was recently printed, I am pleased with the protection written into it for the Lander Road. It is encouraging that Shell & Ultra are limiting the number of wells and size of each drilling pad and with the use of low profile tanks painted to blend with the landscape. I am also pleased with the inclusion in the mitigation comments that Ultra Resources will remove all the surface facilities that are at Pinedale Federal #2. I am grateful that Shell & Ultra will find a replacement of the windmill in Township #30 as well.

The National Historic Trails Center Foundation and the Oregon California Trail Association are appreciative of the cooperation and concern of the companies that are involved.

Sincerely,

Edna Kennell
Executive Director
