/a/ The source for the data in this table is the BLM Recreation Management Information System (RMIS) Report #22 as of January 7, 1998. Fiscal year 1997 visitation data is being reported for fiscal year 1998 because it is the most recent RMIS information available. The BLM is currently in the process of rehosting the RMIS. This project includes a complete review of visitor use information and system improvement analysis.

/b/ Visitor days equal visitor hours divided by 12.

/c/ The number of participants has not been totaled because some visitors participate in more than one activity per visit.
