EMS TRANSMISSION
Information Bulletin No. RS-97-026

To: All Washington and Field Officials
From: Director, National Applied Resource Sciences Center
Subject: Construction Criteria Base (CCB)

Furnishing a hard copy of reference standards and specifications to field officials, such as those published by the American Society for Testing and Materials (ASTM), American Association of State Highway & Transportation Officials (AASHTO), the American Water Works Association (AWWA), the National Fire Protection Association (NFPA), and the Uniform Building Code (UBC) may be a violation of copyright law. Accordingly, we will not provide to field officials copies of standards and specifications which are protected by copyright law.

Instead, it is recommended that State Engineers and District Engineers consider purchasing the CD-ROM disks on which The National Institute of Building Sciences CCB resides.

CCB includes most of the federal and military standards and private reference standards for references (does not include AASHTO or ASTM) that appear in BLM's guide specifications. Also included are military and civilian agency guide specifications, design manuals, cost estimating systems, OSHA safety and health regulations, facility standards, energy performance standards, building codes (including UBC), and other construction and engineering references.

You can download up to 1 megabyte (1 million bytes) free for 30 days at <http://www.nibs.org/ccb> on the Internet to see if the CCB will meet your needs.

CCB is available by federal agencies at a cost of \$250 from the following:

National Institute of Building Sciences
1201 L Street, NW, Suite 400
Washington, DC 20005
Telephone 202-289-7800
FAX 202-289-1092

Please direct any questions to Lori Quayle at (303) 987-6865.
