From: Director, National Applied Resource Sciences Center

Subject: Review and Approval of Map Portrayal of Current  
Administrative Boundaries, Names, and Office  
Locations DD: 2/25/98

Attached is a draft plot of your State with administrative jurisdictions, office locations, and ownership. This information will be used to support a revision of the "Public Lands and Administrative Jurisdictions" large format map (scheduled for printing in May 1998) and the related brochure, "Public Lands and Field Office Locations" (scheduled for printing in late 1998). These products are Washington Office enterprises that will be produced by NARSC and are projected for annual revision. In addition, this data will also serve as prototype digital data themes for the National Small Scale Database initiative of the Washington Office (210). A list of office addresses is also included for your review.

We realize that with the ongoing migration to a two-tier structure, some of this data will change. However, the intent of these products is to provide a "snap shot" of the present BLM structure. Caveats in the form of added notes to the maps will explain the dynamics of the information portrayed. The information will be noted as "vintage - February 1998."

We request your review of this draft information in order to validate its accuracy. If everything is portrayed correctly, please return the plots and indicate that it is okay. If modifications are required, please make changes directly onto the map, on separate documents, or provide digital spatial data to assist in making corrections to this data. Please remember that this information is intended to be portrayed and used at a small scale (less than 1:2,000,000).

Please provide your comments directly to Keith Francis at (303) 236-0113 or via E-Mail (kfrancis). We will appreciate receiving your review/comments no later than February 25, 1998.
