Information Bulletin No. RS-2000-014

To: All State Directors  
Attention: Geographic Sciences

From: Director, National Applied Resource Sciences Center

Subject: Revised 100k Compilation Procedures and Specifications

Under separate cover, we are sending two copies of the revised 100k Compilation Procedures and Specifications compiled by the National Applied Resource Sciences Center's Geographic Sciences Group. These specifications supersede the May 1992 and November 1996 specifications and Change 1, April 1993, in their entirety. Revisions were necessary to update manual and automated procedures for 100k map production and to further clarify compilation of added BLM map enhancements.

It is recommended that a copy of these revised specifications be routed to each person within each State Office who works directly on the 100ks or gathers information for the 100ks. You may photocopy these specifications as needed for distribution.

If you have questions or concerns, please call Bill Jackson, 100k Production Supervisor, at (303) 236-7345.

Signed by:  
Michael Kirby  
Acting Director, NARSC

Authenticated by:  
Patricia Swift  
Secretary (OA)

Separate Cover:  
Revised Specifications (87 pp) (2 copies)
