Information Bulletin No. RS-2000-056

To: State Soil Resource Leads and Soil Scientists  
From: Director, National Applied Resource Sciences Center  
Subject: National Cooperative Soil Survey (NCSS) Conference  
Proceedings

Attached for your information are the proceedings of the 1999 NCSS Conference held in St. Louis, Missouri, June 27 - July 2, 1999.

Copies are being sent to all State Soil Resource Leads and also to all BLM Soil Scientists and others with soil resources responsibility.

The National NCSS Conference meets every other year. The 1999 Conference covered timely topics, challenges, and opportunities with emphasis on future soil resource activities. The steering committee has recommended the next conference in year 2001 be held in Fort Collins, Colorado.

The proceedings present valuable information on presentations, brief summaries of committee reports, and accompanying recommendations made at the conference. BLM participation is reflected in the Highlights of BLM Soil Survey Activities Report (pages 57-64), the NCSS Steering Committee on New Technology Report (pages 67-71), the Data Acquisition for Problem Solving Report (pages 180-188), and the Training and Marketing Soil Scientists for the Future Report (pages 189-196).

If you have any questions or would like additional information regarding the conference, please contact Alan Amen at 303-236-0154 or e-mail at alan\_amen@blm.gov.
