Information Bulletin No. BC-99-110

To: All WO and Field Offices

From: Director, National Business Center

Subject: Y2K Strategy for BLM-Leased Buildings

The Bureau has 47 blocks of space which are assigned to us by GSA. These are included as Attachment 1. These individual assignments are administered out of separate GSA regions. To address the potential for Y2K problems in these locations, the following Bureau wide approach will be in effect immediately.

The Y2K BLM POC (Point of Contact) in each state is authorized and encouraged to communicate directly with the appropriate GSA staff in the region who is assigned Y2K responsibilities. The GSA Y2K designee and the BLM Y2K Point of contact are the parties who are in the best position to personally examine building systems and find solutions. As such, the BLM POC is authorized to work directly with the GSA representative without the additional burden of extended lines of communication or authorities reserved at distant locations. BC-670 is ready to support and assist any POC who encounters technical issues related to our occupancy agreement with GSA at any assigned location.

This IB addresses only space assigned to BLM by GSA. Space leased by BLM, IB BC-99-109 advises field personnel of the appropriate actions to minimize Y2K related building problems.
