Subject: Serious Accident Investigation (SAI) Team Leaders Training Course.

This memorandum serves as an initial notice to the upcoming SAI Team Leaders Course. A team was assembled this year to review and update the material in the SAI Team Leaders course. They are in the final stages of the redesign and the course using this new material is scheduled for March 19-21, 2002, at the NTC in Phoenix.

The Bureau is in need of senior personnel qualified to lead serious accident investigations. This course is targeted at State Directors, Associate State Directors, Deputy State Directors, and Field Office Managers who would be willing to serve in this capacity and who have not received previous training.

If space is available, individuals who have completed the course before may attend this one as a refresher. In any event, we will send all trained team leaders a copy of the new inspection guide.

If you are willing to support this important program and attend the upcoming training, please contact Michelle Ryerson-Grett, Safety Manager, Office of Fire and Aviation, at (208) 387-5175. Additional details will be forwarded to you as the course date approaches.
