To: Field Managers, Nevada

From: Deputy State Director, Natural Resources, Lands and Planning

Subject: Annual Pesticide Use Report for FY 99

DD: 6/30/00

As directed by BLM Manual 9011-Chemical Pest Control, Part .13C and H-9011-1, Part C.3, the BLM is required to submit an annual Pesticide Use Report to the Environmental Protection Agency. To meet this requirement, please submit your field office pesticide use report in **electronic format** to NV 930 no later than June 30, 2000.

The Pesticide Use Report consists of two tables. The format for each of these tables is shown in Attachment 1. An example of a correctly completed Pesticide Use Report is shown in Attachment 2. Remember to report pesticide use for all weed management, insect control, forest pests, etc., when filling out the tables.

Table 1 should include the chemical name (not trade name), pesticide use rate in pounds active ingredient per acre, acres treated, method of application (air or ground), and total active ingredient. Table 2 is a management summary for all treatments (ground, aerial, mechanical, cultural, biological). Please cite the source of funding by subactivity for all treatments, including emergency fire rehab funds.

If you have any questions, please contact Brian C. Amme, Environmental Protection Specialist
