The core team will then be responsible for consolidating these Field Office products into a Draft of Nevada Sagebrush/Sage Grouse Management Guidelines. It is planned for this draft product to go through a final Field Office review before finalization.

The first core team meeting is scheduled for March 21, 2000 at the Nevada State Office in the Mount Rose conference room. The meeting will convene at 10:00 a.m. and adjourn at 4:00 p.m.. The objectives will be to clearly define the process and time-frames for accomplishing draft guidelines by May 1, 2000 and to ensure everyone has a complete package of products and information these guidelines will build upon.
