

**CANADA LYNX PLAN AMENDMENTS - \$300,000**

The President’s budget requested \$19 million to update land use plans to support sustainable resource decisions. Congress funded the entire \$19 million budget request under Resource Management and Planning (1610). Within the budget request was \$300,000 for Canada Lynx Plan Amendments (see BLM Budget Justifications for FY 2001, section I, pages 1-8). This line item, which was not a State or land use plan specific, requires additional information to allocate this funding to States.

Please identify your approach to amend land use plans to incorporate conservation strategies for lynx habitat, consistent with the BLM/FWS Canada Lynx Conservation Agreement (being provided under a separate memorandum). Your approach should address timeframes and whether you intend to complete individual land use plan amendments, a statewide plan amendment, a joint amendment effort with the Forest Service, or some other approach. Identify any additional funding needs above your base capability.

RMP/MFP’s to be amended (Name and State)	Type of Amendment (RMP, Statewide; Interagency, other)	If joint, Name Cooperating Agencies	Planned Completion Date (mo/yr)	Estimated Cost (\$000) in 2001
