

**STATE WEED INVENTORY  
FORM 2**

***INSTRUCTIONS FOR FILLING OUT STATE FORM 2***

The vital information on this form is the number of BLM ACRES INVENTORIED, INFESTED ACRES INVENTORIED, and INFESTED ACRES ESTIMATED for each non-native invasive plant species identified on the attached list for your STATE. This information will be compiled from Form 1-County/District Weed Inventory Form.

The definition of infested acres is an area of land containing a target weed species. An infested area is mapped by drawing a line around the boundary of the infestation, excluding large areas not infested. Consider only the area canopied by weeds as being infested. Record as acres infested, or tenths of an acre when less than an acre is occupied. Any infestation less than one-tenth of an acre; i.e., a single weed plant or occasional weed plants, is to be documented as one-tenth of an acre.

1. **DATE**--Enter the date by month and year.
2. **STATE**--Name of the state.
3. **POINT OF CONTACT**--Name of the person completing this form.
4. **TELEPHONE NUMBER**--Telephone number of the person completing this form.
5. **ELECTRONIC MAIL ADDRESS**--Email address of the person completing this form.
6. **ACRES INVENTORIED**--Enter the total number of BLM acres, rounded off to hundreds of acres, inventoried for weeds in the entire state.
7. **BLM WEED ACREAGE TABLE**

***Species***--Use the attached non-native invasive plant species list to fill in this table. List the species by common name and scientific name. Use a separate form to list species not on the plant list.

***Infested Acres Inventoried***--For each species, enter the number of BLM infested acres found during the field inventories in the entire state. The definition of infested acres inventoried is an area of land containing a target weed species that has been mapped by GPS and digitized by GIS or other methods accurately showing what land is infested. If there are over 100 acres, round off to the nearest hundred. Any infestation less than one-tenth of an acre; i.e., a single weed plant or occasional weed plants, is to be documented as one-tenth of an acre.

***Infested Acres Estimated***--For each species, enter the number of BLM infested acres estimated for the entire state. If there are over 100 acres, round off to the nearest hundred. The definition of infested acres estimated is an area of land that is delineated on a map where known infestations of target weed species are established, but ground proofing is limited on the exact extent of infestation.

***Comments***--Write in clarifying or additional information such as explaining changes in

acreage figures, noting new invading species, etc.

***Totals, Acres Inventoried***--Add the total number of acres for all species listed on the non-native invasive plant list.

***Totals, Infested Acres Inventoried***--Add the total number of acres for all species listed on the non-native invasive plant list.

***Totals, Infested Acres Estimated***--Add the total number of acres for all species listed on the non-native plant list.
