

GIS Planned Acquisition Data Call

PLANNING	
GIS Hardware Acquisitions	
Project number * assigned to this acquisition for this data call :	
Type, product name (if known) and number of units	
geographic/organizational location,	
purpose of the acquisition (end user, GIS Specialist, Internet Mapping site, etc.),	
date of acquisition (actual or planned),	
Is this purchase reflected in your Preparation Plans for New Planning Starts (see IM 2001-038. - (Note that the Pre-Plans should reflect all planned purchases).	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

PLANNING	
GIS Software Acquisitions	
Project number assigned to this acquisition for this data call (use same # as the number you assigned to hardware acquisition where appropriate):	
Type, and product name (if known)	
geographic/organizational location,	
purpose of the acquisition (end user, GIS Specialist, Internet Mapping site, etc.),	
number of licences if the acquisition is software, and type of licence (site or concurrent user),	
date of acquisition (actual or planned),	
Is this purchase reflected in your Preparation Plans for New Planning Starts (see IM 2001-038. - (Note that the Pre-Plans should reflect all planned purchases).	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

PLANNING	
Internet Mapping Site	
Project number assigned for this data call: (use same # as the number you assigned to hardware acquisition where appropriate)	
Descriptive name	
function of the site,	
primary users of the site,	
principal data sets used to serve the site,	
geographic/organizational location,	
software tools planned to build the site (such as ArcIMS),	
date of acquisition (actual or planned),	
date of implementation (actual or planned),	
whether or not the site will be behind the BLM firewall,	
whether or not the acquisition is in the State IT Acquisition plan submitted to WO-500 in August/September, 2000	
Is this purchase reflected in your Preparation Plans for New Planning Starts (see IM 2001-038. - (Note that the Pre-Plans should reflect all planned purchases).	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

FIRE MANAGEMENT PROGRAM	
GIS Hardware Acquisitions	
Project number assigned to this acquisition for this data call:	
Type, product name (if known) and number of units	
geographic/organizational location,	
purpose of the acquisition (end user, GIS Specialist, Internet Mapping site, etc.),	
date of acquisition (actual or planned),	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

FIRE MANAGEMENT PROGRAM	
GIS Software Acquisitions	
Project number assigned to this acquisition for this data call (use same # as the number you assigned to hardware acquisition where appropriate):	
Type and product name, (if known)	
geographic/organizational location,	
purpose of the acquisition (end user, GIS Specialist, Internet Mapping site, etc.),	
number of licences if the acquisition is software, and type of licence (site or concurrent user),	
date of acquisition (actual or planned),	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

FIRE MANAGEMENT PROGRAM	
Internet Mapping Site	
Project number assigned for this data call: (use same # as the number you assigned to hardware acquisition where appropriate)	
Descriptive name	
function of the site,	
primary users of the site,	
principal data sets used to serve the site,	
geographic/organizational location,	
software tools planned to build the site (such as ArcIMS),	
date of acquisition (actual or planned),	
date of implementation (actual or planned),	
whether or not the site will be behind the BLM firewall,	
whether or not the acquisition is in the State IT Acquisition plan submitted to WO-500 in August/September, 2000	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

OTHER PROGRAMS (Specify under Project Number or Name)	
GIS Hardware Acquisitions	
Project number (or name) assigned to this acquisition for this data call:	
Type, product name (if known) and number of units	
geographic/organizational location,	
purpose of the acquisition (end user, GIS Specialist, Internet Mapping site, etc.),	
date of acquisition (actual or planned),	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

OTHER PROGRAMS (Specify under Project Number or Name)	
GIS Software Acquisitions	
Project number, Program or Project name assigned to this acquisition (use same # as the number you assigned to hardware acquisition where appropriate):	
Type and product name, (if known)	
geographic/organizational location,	
purpose of the acquisition (end user, GIS Specialist, Internet Mapping site, etc.),	
number of licences if the acquisition is software, and type of licence (site or concurrent user),	
date of acquisition (actual or planned),	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.

OTHER PROGRAMS
(Specify under Project Number or Name)

Internet Mapping Site	
Project number assigned for this data call: (use same # as the number you assigned to hardware acquisition where appropriate)	
Descriptive name	
function of the site,	
primary users of the site,	
principal data sets used to serve the site,	
geographic/organizational location,	
software tools planned to build the site (such as ArcIMS),	
date of acquisition (actual or planned),	
date of implementation (actual or planned),	
whether or not the site will be behind the BLM firewall,	
whether or not the acquisition is in the State IT Acquisition plan submitted to WO-500 in August/September, 2000	

* Project Numbers are issued by the Program Office for specific projects. If this purchase does not have a Project Number assigned, you may leave this section blank.
