

Acknowledgment letter – State Director
(responses to letters sent directly to state office)

6240 ()

Dear Supervisor Smith Jones,

Thank you for your response to Secretary Norton's letter of March 28, 2001, regarding the [National Monument]. Secretary Norton is dedicated to the principle of local input into the future direction of all the recently created national monuments. Your recommendations have been shared both with the Secretary and [field manager], the local manager for the [National Monument].

While many issues surrounding the [National Monument] can and will be addressed during the planning process, others would require presidential or congressional action. We will keep you informed as the planning process for the monument moves forward.
