

Summary of Proposed IT Investments

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO100	AFS Fire Weather Database	Web based display of remote weather station data & fire weather indices.	AK	Scott Billing
WO100	Aircraft Monitoring System (AC)	Provides BLM Aviation Managers with OAS-23 data on Aircraft Rentals & Contracts. Data is provided by Office Aircraft Services (OAS).	NV	Pete Culp
WO100	Alaska System Administration System	Relational database containing administration information for BLM-Alaska subsystems.	AK	Marty Rapp
WO100	Assignments Tracking	Tracks assignments (including controlled correspondence). Can be used by employees up and down the table of organization. * Attach scanned copies of correspondence. * Delegate assignments *Archive completed assignments to an affiliated	CA	Al Wright
WO100	Automated Case Tracking (ACTS)	ACTS locates DOCKET case files and keeps track of DOCKET check-out/check-in events	OR	Bob DeViney
WO100	Dockets File Management System	Automated Replacement for Bar Code DB4 System	CO	John Foster
WO100	ES State Director's Assignment Tracking	Tracking of correspondence	ES	Russell Hampton
WO100	Incident Qualification and Certification System (IQCS)	Proposed interagency fire qualification/certification system		National Wildfire Coordinating Group
WO100	Initial Attach Management System	A system for tracking cost and resources for wildfire suppression		AD300
WO100	Initial Attack Management System (IAMS) Map Viewer	Web based viewing of IAMS maps products	AK	Scott Billing
WO100	Initial Attack Management Systems (IAMS)	Lightning	AK	Scott Billing

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO100	WY-CFO Index Creator of Interior Board Land Appeals	Index of Interior Board Land Appeals	WY	Bill Mortimer
WO200	Alaska Aerial Photography Online	Web-based addition to the Aerial Photography System	AK	Marty Rapp
WO200	Alaska Aerial Photography System	Relational database containing high and low altitude aerial photography photograph/flight information.	AK	Marty Rapp
WO200	Alaska Cultural Resources Information System	A system to collect		Field Manager
WO200	Alaska Resource Management Information System (ARIMS)	Resource information collection and display.	AK	Dennis Tol
WO200	Alaska Spatial Data Management System (SDMS)	A system to collect	AK	Deputy State Director, AK
WO200	Alaska Wildlife Observation System (WOS)	A GIS system to collect		Anchorage Field Manager
WO200	Anasazi Heritage Cultural Resource System	Joint Cultural Resource Database system with State	CO	LouAnn Jacobson
WO200	Aquatic Resources Information Management System (ARIMS)	Database system tied to routed stream coverage for keeping data on water quality, macro invertebrates, fish species, fish habitat, etc. for use by hydrologists, biologists and planners.	OR	Ed Shepard
WO200	Archaeological Sites Tracking	This is a tracking system for Archaeological Sites visited during field exams. The data is held in an Informix Database with MS Access used as a frontend in a Windows NT environment	WY	Sandy Meyers
WO200	Archeology Database	Used for tracking and reporting Cultural Resources Use Permits, Fieldwork Authorizations, Paleontological Resources Use Permits, Accessions, Collections, Sites, Loan Information, Library Information	MT	Gary Smith

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO200	Arizona Turbo NEPA P&N Database Website	Arizona and Utah have been working collaboratively to covert Utah's Environmental Notification Bulletin Board (ENBB) into a far more extensive Planning and NEPA Database Website which can be used by every SO	AZ	Henri Bisson
WO200	BLM CA Recreation Sites	Rec specialists update documents in a database which describe recreation sites in their field office boundaries. This database is selectively replicated to another version of the database at NIRMC and then to yet another copy on a DOI s	CA	Carl Rountree
WO200	Challenge Cost Share Database	Database to manage CA challenge cost share projects. Records BLM and partner funding	CA	Carl Rountree
WO200	Cultural Clearance Log	A WordPerfect table, updated regularly, which shows the status of cultural permit applications.	WY	Russ Tanner
WO200	Cultural Resources Site Form	Database for keeping information about cultural sites and to generate site form required by State Historic Preservation Office	OR	State Historic Preservation Office
WO200	Current Vegetation Survey (CVS)	Database for tracking vegetation status and trends, current information and changes on vegetation on permanent plots over time in the Pacific Nothwest	OR	Regional Ecosystem Office
WO200	CX_Register	WordPerfect Table used to track Categorical Exclusions prepared in the Newcastle Field Office.	WY	Barbara Lebsack
WO200	ES Wild Horse and Bureau Database	To track information about the sale of wild horses and burros by location	ES	Jinx Fox
WO200	Forest Vegetation Information System	Provides information on vegdtative types.		AD200
WO200	Grazing Authorization and Billing System (GABS)	Generates Bills for Grazing permits	NCS RS	Henri Bisson
WO200	Great Basin Live Moisture Project	Live fuel moisture data - 1	NV	Kevin Hull

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO200	HB Herd Area System	Tracks resource information about areas of public lands providing habitat for wild horse and burro herds	RS	AD-200
WO200	Idaho Mapping Application	Database of Quad ID	ID	Branch of Information Systems
WO200	Idaho/Oregon Weed Database	Database (MS Access) for tracking noxious weed locations and treatments.	OR	Ed Shepard, DSD, OR 930
WO200	Interagency Restoration Database(IRDS)	Database for tracking stream restoration projects in the Pacific Northwest	OR	Regional Ecosystem Office
WO200	Interagency Species Management System (ISMS)	Oracle Database on Forest Service server for keeping data about "survey and manage" species in the Pacific Northwest	OR	Regional Ecosystem Office
WO200	Inventory Data System (ID)	Provides soil and vegetative data for allotment management alternative analysis.	NCS RS	Henri Bisson
WO200	Library Reference System (LB)	Automated card catalog of BLM owned books and journals. On the HoneyWell this data was maintained in seperate databases by each	NCS RS	Henri Bisson
WO200	Marbled Murrelet(MAMU)	Inventory of Marbled Murrelet Surveys	OR	Joe Lint (OR 930)
WO200	Micro*Storms	Silvaculture treatments and surveys	OR	Larry Larsen (OR 930)
WO200	National Protest Database	Automated:Ease in accessing protest responses. Search capability: Better use of information about issues raised in planning processs. Information management: Better data sharing among employees of all profession.	WO	Henry Bisson
WO200	NEPA Log	An Access database used to collect, update, and maintain information on NEPA planning documents.	WY	Mark Hatchel
WO200	NEPA_Register	A WordPerfect Table used to track the preparation of environmental assessments in the Newcastle Field Office.	WY	Barbara Lebsack
WO200	Nevada Cultural Resource Information System (NVCRIS)	An inventory of historic	NV	Meg Jensen

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO200	Oregon Natural Heritage Database	Botanical species locations in Oregon. Local implementation of a national system.	OR	Oregon Natural Heritage Society
WO200	Permitting System for Deschutes River Management Area	Web based application for inquiry, purchasing, and administration of boater passes for the Lower Deschutes River Management Area	OR	Prineville District Office
WO200	Permitting System for the Deschutes River Management Area	Oregon BLM is developing a web-based application which will allow the online inquiry	OR	Thomas Mottl
WO200	Personal Digital Assistant Use for Natural Resource Monitoring	Develop and test applications for field data collection using PDA technology. Examples of types of applications include Riparian Proper Functioning Condition		Alan Barron Bail
WO200	PFC	This holds data from Proper Functioning Condition field exams. It is used by resource specialists. The data is contained in a Informix Database and MS Access is used as a front end on a Windows NT Platform.	WY	Ken Peacock
WO200	Rangeland Administration System (RAS)	The Rangeland Administration System (RAS) Replaces the Grazing and Billing System (GABS). RAS Will provide grazing administrative support and management reports to Field		Henri Bisson
WO200	Rangeland Improvement Project System (RIPS)	Tracks status of rangeland improvement projects		Leon Pack
WO200	Rangeland Standards & Guidelines Database	Database designed to manage assessments and actions related to grazing allotments in CA Statewide	CA	Carl Rountree
WO200	Rangeland Standards & Guidelines Database	Database designed to manage assessments and actions related to grazing allotments in CA Statewide		Carl Rountree
WO200	Raptor Inventory	Data Base hold data on raptor nest locations and yearly nesting data. Data is presently being held in a informix database with MS Access used a frontend in a Windows NT enviroment.	WY	Larry Apple

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO200	Recreation Management Information System (RMIS)	Redesign of recreation and wilderness information	WO	Henri Bisson
WO200	Reference Theme Serving System (RTSS)	The RTSS will serve large volumes of seamless spatial (map and image)data in fully georeference themes for Bureauwide distribution.	WO	Gayle Gordon
WO200	Spatial Metadata Parser	A program that takes text files that are compliant with the Federal Geographic Data Committee (FGDC) metadata content standard and generates a variety of outputs so the files can be loaded to web sites	OR	Chris Hamilton
WO200	Special Status Species(SSS)	Database(MS Access) on status and occurrence of threatened, endangered or other special status species on BLM lands in Oregon/Washington.	OR	Biological Resources
WO200	Spotted Owls	Database of information on visits to spotted owl sites	OR	Joe Lint (OR930)
WO200	Timber Sale Automated Record System	A GIS "utility" which uses a simple menu system to assist timber sale planners and others in the planning and tracking of timber sales at the Resource Area, District and OR/WA levels.	OR	Ed Shephard
WO200	Timber Sales Information System(TSIS)	The Timber Sales Information System supports Timber Sale and Special Forest Product components of the BLM Materials Disposal Program. It provides users with a suite of computational tools and financial accounting. This includes informa	OR	Alan Wood (OR-931)
WO200	Timber Volume and Value System(TVVS)	TVVS is a set of programs used to collect and analyze timber data for a timber sale in western Oregon. The system includes PC/Polycorder programs for data collection and AIX programs for processing tree measurement data. TVVS menu is us	OR	Lyndon Werner (OR 931)
WO200	Transects Database	holds allotment assessment, daubenmire transect information and rangeland health site documentation data for range conservation in Informix tables - allows for load of health site data from the output from an Access program used in the	MT	Larry Padden

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO200	Water Quality Knowledge Base	Clearinghouse for riparian water quality project results. In August of 1997, we were asked by Director Shea for information regarding the application of best science and future projects directed at utilizing best science. One of these p	ID	Martha Hahn
WO200	Wild Horse and Burro Applicant Database	Stores names and associated information about people who have applied to adopt. Would allow transfer of the record to the existing Disposal database when the applicant became an adopter.		Henri Bisson
WO200	Wild Horse and Burro System (HB)	Maintains data on wild horses and burros that have been removed from the public lands as excess	NCS RS	Henri Bisson
WO200	Wild Horse and Burro System (HB) -- Duplication by Colorado	Maintains data on wild horses and burros that have been removed from the public lands as excess, from their preparation for adoption to their release, title, or death.	CO	Henri Bisson
WO200	Wildlife and Fisheries Inventory System (WS)	Informix database of wildlife and fisheries inventory. Special Status Species Tracking (SSST) main module.	NCS RS	Henri Bisson
WO200	Wildlife Inventory System (WL)	This query system provides end user access to an inventory of lands and resources information which is utilized to manage wildlife resources on public lands	NCS RS	Henri Bisson
WO200	WY-CFO Calculating Aums on a PC	Used to Calculate Livestock Grazing Aums in the Ran Formula to do the Calculations.	WY	Don Whyde 307-261-7510
WO200	WY-CFO Trail Center Quotes	Collection of Quotes from Books and Diaries	WY	National Historic Trails Center
WO300	Accu-Tracx File Manager Plus	Supports Adjudication Team - Minerals and Land Case Files (Dockets) and also has reliable information for LR2000.	ES	Barbara Beaudin
WO300	ALAS---(Automated Leasing Activities System)	Automates all activities associated with oil and gas lease sales	NM	Charles Perrott
WO300	Alaska ANCSA Acreage Control System	Relational database containing information related to the ANCSA.	AK	Marty Rapp

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	Alaska Automated Case File Tracking System	Relational database created for tracking Alaska case files.	AK	Marty Rapp
WO300	Alaska Easement Identification System	A GIS system to collect	AK	State Director
WO300	Alaska Escrow Accounting System	Relational database containing Alaska Native escrow account information.	AK	Marty Rapp
WO300	Alaska Historical Index System	Relational database containing HI data.	AK	Marty Rapp
WO300	Alaska Historical Index System Online	Web-based addition to the Alaska HI System	AK	Marty Rapp
WO300	Alaska Land Information System	Relational database of lands and minerals records data in Alaska	AK	Alaska Leadership Team
WO300	Alaska Land Information System - Online	Web-based addition to ALIS	AK	Marty Rapp
WO300	Alaska Land Windows System	Relational database designed to maintain Alaska land windows (areas of interest).	AK	Marty Rapp
WO300	Alaska Limits of Acceptable Change System	Relational database containing environmental information accumulated over a period of time for analysis purposes.	AK	Marty Rapp
WO300	Alaska Survey Plan System	Relational database designed to assist in the planning of surveys.	AK	Marty Rapp
WO300	Alaska Survey Plan System - Online	Relational database designed to assist in the planning of surveys - web based version.	AK	Marty Rapp
WO300	Alaska Survey Tracking System	Relational database containing information for tracking Alaska land surveys.	AK	Marty Rapp
WO300	APIS--(Automated Patent Issuing System)	Prints Patents from database and computes Public Land Statistics	NM	Charles Perrott

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	Appraisal Project Tracking	Tracks the status of appraisals from initial request to final review and makes that info available to field managers and realty specialists. System also facilitates appraisal program workflow mgmt and overall program analysis.	CA	Carl Rountree
WO300	Arizona Automated Map & Plats (MAPPIC)	Web retrieval and viewing of MTP	AZ	Chris North
WO300	Arizona MTPCad	An automated system to edit and update Master Title Plats	AZ	Chris North
WO300	Arizona Survey Tracking and Status Reporting	Web based --Tracks Field & Office Processes of Cadastral Survey Projects. This is an internal tracking system used by cadastral personnel to track the field and office processes of survey projects. The system is password and user name	AZ	Chris North
WO300	Automated Case Tracking (ACTS)	ACTS locates DOCKET case files and keeps track of DOCKET check-out/check-in events	OR	Bob DeViney
WO300	Automated Fluid Minerals Support System (AFMSS)	Tracks oil and gas approval and inspections activity	NC	AD300
WO300	Automated Lease Management System (LM)	Generates bills for rights-of-way	WY	Bill Weigand
WO300	AVLR2000	ArcView application for a LR2000 geographic interface	OR	Don Kreitner
WO300	Bond and Surety System (BS)	Maintain data on various land use authorized under 43 CPR	NI	Pete Culp
WO300	Bond Log	Shared WordPerfect table used to track receipt of performance bonds from surety companies for minerals development work.	WY	Mike Roberts
WO300	CA LWCF Proposals Database	Manages	CA	Carl Rountree
WO300	Cadastral Survey Field Note System (CS)	Collects	RS	Pete Culp
WO300	CASHE and Safety Management System (CSMS)	The CASHE and Safety Management System (CSMS) will:1. Give field personnel a tool and a standardized reporting process that will allow them to easily document follow-up CASHE and Annual Occupation Safety and Health Inspection findings	RS	Pete Culp WO-300

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	Colorado - Communication Site Lease Database	Keeps track of all Leases and realty actions regarding communication sites.	CO	Frank Salwerowicz
WO300	Colorado - GCDB Surveys Data base	Tracks Cadastral Surveys against GCDB collection	CO	Darryl Wilson
WO300	ES Land Status Records Website	Eastern States Land Status Records that will become of the LR2000 database once we get the bureauwide system developed. This allows BLM employees to look up federal land and minerals ownership for Eastern States.	ES	Walt Rewinski
WO300	ES Wild Horse & Burro Internet Adoption Website	Allows the public to bid on wild horses and burros that are available on the Internet on a quarterly basis. They fill out an application for adoption	ES	Jinx Fox
WO300	Facility Inventory Maintenance Management System (FIMMS)	FIMMS is a system by which users may identify scheduled and corrective items against already entered inventory facilities	OR	Don Weckner (OR-959)
WO300	Five-Year Deferred Maintenance and Capital Improvement Plan Application	The WO-360 has automated a portion of this business process into the Five-Year Deferred Maintenance and Capital Improvement Plan . This is an internal application which is targeted at reducing the cost of document handling	WO	Bernie Hyde
WO300	General Land Office Records System	The GLO Records System is the automation and retrieval of eastern and western land title information and patent images. Provides the public a means to perform searches for land patents by name. Also	ES	Steve Kopach
WO300	Geographic Coordinate Data Base Data Preparation	GCDB Data Prep is a family of automated tools used to clean up errors in the collected GCDB data. Standardized GCDB files and GCDB ArcInfo Coverages are the 2 main outputs of Data Prep.	WO	Pete Culp (BLM)
WO300	Geographic Coordinate Data Base Download Site	The GCDB Download Site is a public internet site for downloading GCDB flat files and GCDB ArcInfo Coverages in ESRI export file format (.e00 files). The site has sophisticated geospatial selection tools for selecting townships for down	WO	Pete Culp (BLM)

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	Geographic Coordinate Database Measurement Management	??		AD300
WO300	Geothermal Production Information	Spreadsheet that contains well production and power plant data for all geothermal plants which are administered by BLM.	NV	Richard Hoops
WO300	GLO Document Conversion System (DCS)	In order to preserve and automate land patent documents	ES	State Director--Eastern States
WO300	GLO Serial Patent Web Module	The GLO Serial Patent Web Module provides live database access and image retrieval to Serial Patents dating from July 1	ES	State Director--Eastern States
WO300	Immediate Spatial	The purpose of this project is to implement the Premier Data Services (PDS) Commercial-Off-the-Shelf (COTS) and custom applications (already developed for the Bureau)	WO	Carson (Pete) Culp
WO300	Inspect-Enforce	Keeps addresses of Inspectors for Bureau	MT	Lonny Bagley
WO300	Investigation Reporting System (Lawnet)	Tracks law enforcement activities including arrests and convictions		AD300
WO300	Legacy Rehost for the Year 2000 (LR2000)	Rehost and limited redesign of case recordation	WO	Pete Culp
WO300	LR2000 Upload	Combines daily case recordation data, uploads daily to LR2000.	WY	Mike Roberts
WO300	Master Name System (MN)	A records system utilized to eliminate redundant entry and storage of name and address data among various BLM authorized systems	NI	Pete Culp
WO300	Mineral Patent Application Quarterly Report	This report is required by Washington Office and provides the status of all pending MPAs in Nevada.	NV	Roger Haskins
WO300	Minerals/Lands Tracking	This a multiple tracking system: 1) tracks Mineral APD cases from beginning to through the drilling process, 2) tracks realty cases from beginning to closure, 3) tracks the progress of the Wildlife input on both the APD and realty case	WY	George Phillips
WO300	Mining Claim Database	Database of mining claim names, claim numbers, and names of claim owners. Used by WSO Accounts and Mining Claim groups.	WY	Mike Roberts

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	Montana's Maps on Demand	modification to the RTSS Maps on Demand program	MT	Kathie Jewell
WO300	Montana State Office Oil and Gas Database (OGS)	Used to track bids and bidders at the oil and gas sale	MT	Karen Johnson
WO300	National Integrated Land System (NILS)	The National Integrated Land System (NILS) is a joint project between the BLM and the USDA Forest Service in partnership with the states	WO	Jack Arthur (Director)
WO300	Natural Gas Policy Act Tracking System (NGPASYS)	NGPA Well Category Determinations for IRS Sect 29 tax credits and pricing info	NM	BLM Albuquerque Field Office
WO300	Nevada Historical Index System	Automated Historical Index System (word perfect) includes HIs updated from 1996 to present	NV	David Clark
WO300	Nevada Mining Claims Imaging System (NV)	Scanned Mining Claims recordation documents that are placed on an F50 and can be viewed electronically using AIX or an X-Terminal emulator with Windows NT. This system is available to all Field Office staff and BLM Information Access Ce	NV	AD-300
WO300	Nevada's Cadastral Survey Status	GIS - Graphic depiction of Nevada's status of cadastral surveys	NV	David Clark
WO300	Nevada's Casefile Location and Borrower Information System	Automated case tracking system for Nevada's serialized casefiles	NV	Ted Angle
WO300	Nevada's Oil and Gas Sale Program	An automated system that records Oil and Gas bidder information and sale results.	NV	Donna Grill
WO300	Nobility Environmental Software System	Carson City Field Office Pilot Project Purpose The Carson City		Pete Culp
WO300	Patent 99	Fiscal year log of all requests received by Public Information Center for patents. Allows staff to easily determine assignments and status of requests. Also used to calculate number of requests	ES	Linda Brooks
WO300	Serial Number Log	After entering needed information, delivers the next highest serial number available for the new case	MT	Teri Bakken

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	Status ES Cadastral Surveys	Tracking of all Eastern States Cadastral Surveys	ES	Tammy Bundy
WO300	Stratigic Surveys	Database (MS Access)for recording Western Oregon "survey and manage" plot data.	OR	Regional Ecosystem Office
WO300	The Stips Database	written to give quick access to the stipulations that are placed on BLM land in Montana/Dakotas	MT	James Albano
WO300	Utah Mining Law Program Log-ASPN Program	Track Incoming Mining Claim Filings	UT	Utah State Office??
WO300	Utah Mining Law Tracking System-Individual Examiner-ASPN Program	Used for Tracking Filings/Work Assignments and Helps in the Process	UT	Utah State Office
WO300	Utah-Mining Law IBLA Decision System-ASPN Program	A list of IBLA Decisions in which we could search by subject	UT	Utah State Office??
WO300	Utah-Mining Law IM/IB etc System-ASPN Program	System which we track Instruction Memos	UT	Utah State Office??
WO300	WY-CFO Caselog	Dbase Program to Track Pending Realty Cases	WY	Pat Moore 307-261-7530
WO300	WY-CFO Coal Geological Data Well Table	This is an excel spreadsheet used to compile various geological data concerning coal seams and related geologic formations. Includes multiple worksheets to calculate various geological data from input values using logical formulas. Incl	WY	Asghar Shariff
WO300	WY-CFO Dewater	A 2 dimensional finite-difference-equation numerical simulation model designed to calculate the pressure distribution within a coal seam.	WY	Asghar Shariff
WO300	WY-CFO Digitized Well Log Spreadsheet	This is an excel worksheet used to track logs that have been digitized. Consists of a master list where logs are tracked throught steps of a digitizing process. Includes some macros to collect categories of information and some formulas	WY	Asghar Shariff
WO300	WY-CFO Dispbase/Acqbase	Dbase program to track land disposal and acquis	WY	Pat Moore 307-261-7530

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	WY-CFO Error Report	Computes per cent of error during gas meter calculations	WY	Pat Moore
WO300	WY-CFO Gas Checks	Calculates volumes of gas in cubic feet per day/month	WY	Pat Moore
WO300	WY-CFO Gas Meter Error	Calculates gas meter error during gas meter calibrations	WY	Pat Moore
WO300	WY-CFO Gas2D	A 2 dimensional finite-difference-equation number simulation model designed to calculate the pressure distribution within a gas reservoir.	WY	Asghar Shariff
WO300	WY-CFO Horntime	Converts Gas well build up pressure to real gas potential	WY	Asghar Shariff
WO300	WY-CFO Indian Dillgence Tracking Program	Tracks leases, units, cas for Indian Dillgence, creates summary sheets	WY	Asghar Shariff
WO300	WY-CFO LACT Tickets	This program computes net sales volumes for Lease Accountability Custody Transfer Meter oil sales.	WY	Pat Moore
WO300	WY-CFO Meter Prover	This program computes meter tolerance from previous LACT calibrations to current.	WY	Pat Moore
WO300	WY-CFO OG List	Compares Coal Lease Acres vs the new Oil & Gas Lease Sale Acres for conflicts, then it generates a report.	WY	Mike Karbs
WO300	WY-CFO Oil Wells in Wyoming	Database shared with the Wyoming Oil and Gas Commission. Showing all the plugged and abandon wells for the State of Wyoming	WY	Pat Moore
WO300	WY-CFO Oil/Water Tank Volume Calculation	Computes volumes for tanks of different geometrical shape.	WY	Pat Moore
WO300	WY-CFO Pit/Tank Volume	Calculates volumes/ capacities for pits and tanks	WY	Pat Moore
WO300	WY-CFO Rehab Helicopter Flights	Keeps track of the plug wells, road access and pipeline data that we are inspecting for reclamation.	WY	Pat Moore
WO300	WY-CFO Reservoir Management Drainage Tracking System	Tracks Oil and Gas Leases, and wells and creates cases & summary sheets	WY	Asghar Shariff
WO300	WY-CFO Run Tickets	Calculates net sales volumes for oil sold from production tanks.	WY	Pat Moore

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO300	WY-CFO zFactor	Calculates the Z factor for a real gas and also the flow rate for a gas well	WY	Asghar Shariff
WO500	Alaska Tape Library System	Access database designed to track and maintain tape library data.	AK	Marty Rapp
WO500	Automated Network Access Request	Automate the request for login access process	WO	WO-540
WO500	Base Tracker	Database (Informix) for tracking base data deliveries from USGS.	OR	Kathy Eaton
WO500	Casefile Location and Borrower Information System	tracks casefiles and its borrowers	MT	Teri Bakken
WO500	Casefile Location And Borrower Information System	System for tracking the location of casefiles and identifying who has checked them out.	ID	Montana BLM
WO500	Corporate Meta-data Repository (CMR)	The CMR documents all BLM national applications. It is a tool for use by the Bureau Architecture	WO	Hord Tipton
WO500	Directives Digest System (DB)	Maintains a database of Instruction Memorandums (IMs) and Information Bulletins (IBs). Data entry is only done by the Washington Office and the National Business Center. Most BLM offices will probably want query access.	NCS	Hord Tipton
WO500	ES Inventory Data Base	Inventory of all the records at Eastern States Office and Field Offices.	ES	Barbara Beaudin
WO500	ES Machines	Tracks the location of computers in Eastern States.	ES	IRM Office
WO500	ES Toner Inventory	Maintains an inventory of toner and ink jet cartridges for printers and fax machines. Notifies you when the inventory is low.	ES	Myra Musialkiewicz
WO500	ESO Help Desk Data Base	Tracks Help Desk requests by all employees.	ES	IRM Office
WO500	ESO Win NT SOP Data Base	Gives direction to NT administrators for problem solving and/or configuration.	ES	IRM Staff
WO500	FOIA/PA Control & Disclosure Files	FOIA Control Files & Privacy Act Acct. & Disclosure Files	ES	Pam Quallich
WO500	Hardware - Software (HS)	Tracks hardware and software issues within the Division.	NI	NI121

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO500	Help Desk Solutions Database	This database contains all help desk orders and solutions.		Alaina Redenbo
WO500	Informix 9.21 Upgrade	Informix Database version upgrade from 7.3 to 9.21	AZ	Hord Tipton
WO500	Infrastructure Database (CY)	Database application that tracks the modernization hardware and software	NI	NI100
WO500	Metadata Tool Selection	Use the processes developed under task 1.5 of the data mangement plan 2001 to select a metadata management tool or tools for immediate use to support the planning initiative.	WO	Hord Tipton
WO500	Montana Help Desk Database	Users enter own help desk requests and can track the requests progress (who, what, where) - Retains old tickets	MT	Robin Stoebe
WO500	National Automated Cache Management System (NACS)	Inventories of computer systems nationwide.		AD300
WO500	Office Automation	Acquire and deploy a standard Office Automation Suite for BLM (Nationally)	AK	Hord Tipton
WO500	Operating System	Upgrade Windows NT to Windows 2000 utilizing Active Directory Services.	WY	Hord Tipton
WO500	OR/WA IT Labor Database	Annual OR/WA IT labor data similar to the Bureau's FY98 LCCM	OR	Wayne Elven
WO500	OR/WA IT Non-Labor Database	Annual OR/WA IT non-labor data similar to the Bureau's FY98 LCCM	OR	Wayne Elven
WO500	OR/WA Narrowband Transition Tracking	Tracking of OR/WA districts' narrowband transition activity	OR	Wayne Elven
WO500	Phone Directory	Lotus Notes database application for creating phone books.	OR	Wayne Elven
WO500	Tape Catalog	Database (Informix) for tracking location and contents of tape backups.	OR	Kathy Eaton
WO500	Technical Reference Model	Documents the BLM Target IT Architecture for the next 5 years	NI	Hord Tipton
WO500	Teletype (TTY)	Dispatch broadcast system.	AK	Scott Billing
WO500	TRACEAR	Radio site inventory and repair report tracking.	AK	Scott Billing

System Owner	AS/IS and Proposed Application	Clearinghouse		
AD	Project Name	Description	State or Office	Sponsor
WO500	User Names (US)	Informix database containing Bureau User names to prevent duplicated user id's	FA	Peggy LeBaron
WO500	WY-CFO General File Cover Records	Creates file covers for records	WY	Bill Moritmer
WO600	BLM CA Events	Calendar of events happening in BLM California that may be of interest to the general public. This database is replicated outside the firewall for access by the public via a web browser.	CA	Tony Staed, DSD External Affairs
WO600	California Briefing Documents	Database library of California issue papers	CA	Tony Staed
WO600	Eastern States Congressional Contacts	External Affairs and all program offices as needed.	ES	Matthew Stewart/Joe Zilincar
WO600	National Mail List System (NMLS)	Central Mialing List Database	WO	AD 600
WO600	Photo Database System	National Catalog of stock photography targeted for use in external affairs activities	WO	AD 600
WO600	Regulation Commenting System	Allows public to comment of BLM regulations	WO	AD600
WO600	Work Orders	Tracks requests and responses to inquiries by public	ES	Tammy Bundy
