Purpose	Acquisition of multiple parcels within the Sandy River gorge, allowing for the protection of significant scenic, recreation, fisheries, and wildlife values.																																								
Purchase Opportunities	Multiple properties facing immediate threats from commercial and rural residential development, and degrading land use practices																																								
Cooperators	Western Rivers Conservancy, The Nature Conservancy, U.S. Forest Service, State of Oregon, Clackamas and Multnomah Counties, METRO (regional government body), Cities of Portland and Sandy, Portland General Electric (PGE), Northwest Steelheaders, Oregon Trout, Sandy River Watershed Council.																																								
Project Description	<p>A breath-taking scenic corridor immediately east of metropolitan Portland, the Sandy and Salmon River canyons descend from the forested slopes of Mount Hood, harboring a rich diversity of animal and plant populations, within secluded riparian and wetland areas. Multiple listed salmon species, including Lower Columbia Chinook and Chum salmon use these turbulent waters for spawning and rearing their young before returning to the Pacific Ocean via the Columbia River. Old growth stands of Douglas fir contain prime habitat for the threatened northern spotted owl.</p> <p>The Sandy River project offers exceptional recreational opportunities for fishing, hiking, camping, wildlife viewing, nature study, land-based recreational day use, and non-motorized boating or floating. The project is easily accessible from the Portland Metro area, the northwest's second largest population center.</p> <p>The 29,000-acre Sandy River project contains the route of the historic Barlow Road, the western segment of the Oregon National Historic Trail. The project shares a common boundary with the Salmon-Huckleberry Wilderness, administered by the U.S. Forest Service.</p> <p>BLM is working with PGE to remove the Bull Run hydroelectric project, including dams on both the Sandy and Little Sandy Rivers. Dam removal will restore the free flowing character of the Sandy River. The decommissioning includes eventual transfer of 1,272 acres of PGE lands within the Sandy River project area into Federal ownership.</p>																																								
O&M Cost	Estimated "start up" cost: \$5,000	Estimated "annual" maintenance: \$1,500																																							
GPRA Goal	Provide opportunities for environmentally responsible recreation.
