2810 (fire)	0	6310 (O&C forests)	2
Total	—		222

Funding distributions in the table below are based on an even division of available NPLD 2004 central funds among all sites/events nominated and submitted to the Washington Office as of March 31, 2004. At mid-year, funds were distributed by the WO Budget Office to State Offices for State Director distribution among NPLD sites/events; State cost targets were adjusted accordingly.

State Directors and Budget Officers should refer to the NPLD site/coordinator chart following this table for site summaries and coordinator contact information. Please note that the site/coordinator chart has changed since the distribution of central funding; some sites have been deleted and others added. State funding did not change based on these late deletions/additions.

Total number of NPLD sites in each State as of 3/31/04 appears in brackets in the first column of the table.
