Forest Road Repairs Underway

North Bend, Ore. – The Bureau of Land Management (BLM) will work to repair two forest roads starting Monday, March 9, 2015. Delays of up to thirty minutes are possible during the work day.

The work will occur on Weaver Road (28-8-18.0) between milepost seven and eight. Workers will also repair Johns Creek Road (29-11-7.1). The roads were damaged in a 2012 storm, and the BLM recently received emergency funding for the needed repairs.

For additional information, please contact the Coos Bay District Office at 541-756-0100.

About BLM
The BLM manages more land – 245 million surface acres – than any other Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western States, including Alaska. The Bureau, with a budget of about $1 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM’s multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.
