NOTICE OF THE FIELD MANAGERS PROPOSED DECISION

INTRODUCTION

This document addresses the issuance or renewal of your grazing lease for the Miller Allotment (#7590). A proposed decision is required by the Code of Federal Regulations (CFR) 4100 to be served on any affected applicant, permittee or lessee who is affected by the proposed actions, terms, conditions, or modifications relating to issuance of a grazing permit/lease.

BACKGROUND

The current grazing lease for the Miller Allotment (#7590) expired on February 28, 2008 and you, the lessee for this allotment, have requested a renewal. An Interdisciplinary team completed a Land Use Plan Conformance and Determination of NEPA Adequacy (DNA), Document No. OR-056-08-137, for this proposed renewal. The DNA is available from the Prineville District upon request.

PROPOSED DECISION

Therefore, it is my proposed decision to issue you a grazing lease, Authorization No. 3605820, for livestock grazing on the below listed allotments. Your grazing lease shall be for a period of ten years (2008-2018) and will reflect the following:

Allotment Name and Number	Livestock		Grazing Period		% PL	Type Use	AUM's
	Number	Kind	Begin	End			
Miller (#7590)	3	Cattle	03/15	06/01	100	Active	8

Due to computer rounding, the above AUMs may not correspond with your actual grazing preference. Your actual grazing preference is 8 AUMs active and zero suspended.

Other terms and conditions of the grazing lease will be as follows:

♦ Lessees/permittees are required to submit actual use grazing records within 15 days of completion of the years grazing use.

♦ Salting of livestock within one-quarter mile of water is prohibited. Supplemental feeding of livestock on public lands is prohibited without prior authorization from the BLM.

♦ Lessees/permittees are required to maintain all range improvements for which they have maintenance responsibilities.

♦ Lessees/permittees are to provide reasonable access across private and leased lands to the BLM for the orderly management and protection of the public lands, 43 CFR 4130.3-2 (H).

♦ This grazing lease does not grant any additional privileges for travel on public lands beyond what the general public is allowed. All travel restrictions imposed by BLM will apply.

RATIONALE
Based on the review of DNA (OR-056-08-137), I have determined that this renewal meets the criteria for a Determination of NEPA Adequacy (DNA) and that no additional environmental analysis is required. Further more, the renewal conforms to the applicable land use plan and that the NEPA documentation fully covered the proposed action and constitutes BLM's compliance with the requirements of NEPA.

The appeal and petition for a stay must be filed in the office of the authorized officer, as noted above. (2) The likelihood of the appellant's success on the merits.
(3) The likelihood of immediate and irreparable harm if the stay is not granted, and
(4) Whether the public interest favors granting the stay.
As noted above, the petition for stay must be filed in the office of the authorized officer and served in accordance with 43 CFR 4.473.

Any person named in the decision that receives a copy of a petition for a stay and/or an appeal see 43 CFR 4.472(b) for procedures to follow if you wish to respond.
