

Dear Western Oregon BLM,

I understand you are accepting public input re: a proposal to open 1.7 million acres of old-growth and stream side reserves to logging. These forests provide habitat & migration corridors for endangered wild life, clean drinking water for several communities, & recreation opportunities for us all. Please uphold protections for all old-growth & streamside reserves.

Sincerely,

Name: Ellen Todras

Address: 1650 Crest Dr.
Eugene, OR 97405
