Dear BLM:

NOV 21 2007

As a very concerned resident of Oregon I am writing to oppose the proposed WOPR mainly because of the clearcutting of old growth forests. Forests that are already endangered will be gone forever.

I thought the BLM was supposed to PROTECT our resources, not make FAST CASH from the earth - which belongs to nobody or EVERYONE.

At such a crucial time on our planet regarding global warming and keeping our watersheds pristine I am 100% opposed and enraged as a taxpayer, citizen and RESIDENT of this state by your involvement. Please stop all of this nonsense!

Steven Janusce-Siegel
