To the Decision Makers for  
The BLM – Western Oregon Plan Revision

Although I have previously signed petitions and sent my written objections directly to you, please consider this letter as yet another impassioned request to STOP your consideration of the BLM JPTM OHV Emphasis Area over the outcry of thousands of Oregon resident citizens who live in the surrounding area.

Truly within the vast BLM land holdings there are better sites than the JPTM area that could be developed to support the recreational activity of ATV, motorcycle and truck enthusiasts. They do indeed deserve safe areas to recreate – but not at the expense of folks who live in already developed rural neighborhoods who choose more passive methods to recreate –i.e. walking, hiking, jogging, horseback riding, bicycle riding, and who deserve to live free of the increased traffic danger, noise, air pollution, fire danger, stream degeneration, and decreased wildlife habitat that this OHV designation would absolutely cause.

You know the right thing to do for us – now DO IT!

Sincerely,

Elizabeth Holliday
