Revising the BLM's Resource Management Plans in Western Oregon

I wish to comment on the Medford District OHV Emphasis areas. I applaud the district for proposing 13 areas, yet I am voicing my concern for the thousands of acres of land that will be closed! Statistically there is a significant increase in the popularity and usage of off highway usage and that trend is forecasted to continue in the future. At the minimum the three areas designated in the PMP and a number of other areas should be designated open to control environmental damage and plan for future growth! Furthermore I would like to see more emphasis put into trail development and maintenance and less emphasis on concentrated law enforcement! These are public lands and should be managed for public recreation!
