The Bureau of Land Management is revising the six western Oregon Resource Management Plans tied to the Northwest Forest Plan. The revised plans (to be completed in 2008) will address public lands and resources managed by the Salem, Eugene, Roseburg, Medford, and Coos Bay Districts and the Klamath Falls Resource Area of the Lakeview District. The planning area includes approximately 2,550,000 acres of public lands. About 2,100,000 of those acres are land revested from the Oregon and California Railroad and are managed under the O&C Lands Act of 1937.

The planning process began on September 7, 2005 with formal issue scoping. The plan revision process is expected to be completed in 2008. A Draft Environmental Impact statement was released for public review on August 10, 2007.

More information can be obtained from the project office in Portland, Oregon. If you would like to be placed on an electronic or postal mailing list for future updates, please use the information in the contact link above!
