*Bureau of Land Management, Senator Gordon Smith, Senator Ron Wyden,  
Rep. Peter DeFazio, Governor Ted Kulongoski, Board of County  
Commissioners,*

*The changes proposed in the Western Oregon Plan Revisions (WOPR)  
greatly diminish the beauty and health of over 2.5 million acres of public  
lands in western Oregon.*

*The proposed logging and Off Highway Vehicle use compromises the  
salmon breeding streams. In recent years much has been done to protect  
these fish. To allow clear cutting and increased off road traffic destroys all  
that has been done to protect these last remaining ancient lands.*

*Logging and replanting same age, same species plantations create the one  
of the worst possible fire conditions.*

*The WOPR is an ill conceived plan, designed to make a few people money  
for a short period in time. Developing this area for Eco-Tourism will create  
jobs for many generations to come.*

*I want to ask each of you what legacy do you want to leave for your grand  
children and their children?*

*Thank-you for your time.*

*Sincerely,*
