Bureau of Land Management  
Western Oregon Plan Revisions Office  
P.O. Box 2965  
Portland, OR 97208

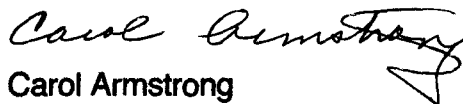

To the management:

The BLM's Western Oregon Plan Revision is a step backwards because it affects old growth that cannot be replaced and it reduces riparian protection. I am from the East and had never seen old growth until I moved West. I have never seen anything more beautiful. It also provides clean water, fish and wildlife habitat and fabulous recreation, to name a few reasons for its preservation.

We must find ways to protect county revenue that are sustainable. I will resisit old growth timber sales by every means possible, by letters, demonstrations and contributions to support legal actions that challenge such timber sales.

Please wake up to the importance of long term protection of this precious section of our planet and to the meaning of its continuing destruction.

Yours sincerely,

  
Carol Armstrong
