Bureau of Land Management
WOPR Office
333 SW 1st Avenue
Portland, OR 97208

Dear BLM,

I am a recent graduate of Grants Pass High School and would like it to be on the record that I urge the BLM to choose the no action alternative in their WOPR decision.

I am very concerned about global warming and I think that increasing the harvesting of old growth trees at this critical time is irresponsible and dangerous.

Please choose the no-action alternative so that we can change the direction of our forest management policies to reflect the will of the people. Most Americans want federal land managers to embrace thinning second growth forests, safeguard communities from wildfire and protect what remains of our nations ancient forests.

I urge all policy makers to take global warming into consideration when making decisions that will have long term affects on the whole environment.

Thank you,

Gerard Hood
