Re: Western Oregon Plan Revisions

Dear Sir -

You are entrusted with a resource that belongs to 7 grand children. Do not cut any trees over 75 years old. These ecosystems are the last remaining stands and hold great value for science and future generations. They are irreplaceable -

The Bush administration is full of greed and disrespects our national treasures. Please delay - check - delete any actions that will destroy our mutually shared forests, and watersheds. Your assistance is appreciated.

Thank you

Gretchen Randolph, PMHNP
Nurse Practitioner.
