JAN 11 2008

Please value the sanctity of life with regards to the forests in your jurisdiction. I implore you to ~~also~~ respect the last intact old growth forest ecosystems in Western Oregon and all living systems in general by NOT engaging in the liquidation of <sup>our</sup> natural treasures.

The Western Oregon Plan Revisions (WOPR) besides being an insulting acronym is more importantly not sustainable, aiming to cut a 700% increase of old growth forest. Give nature reprieve all allow them to heal. The BLM plan disregards the protections provided by the Endangered species Act (ESA). By undermining the Northwest Forest Plan, the ~~Forest~~ Clean Water Acts, and the ESA, the BLM would take an illegal and immoral turn for the worse, selling ~~out~~ the interest of the general public and the species that compose intact, living communities. Please limit the disproportionate influence of the Bush ~~administration~~ <sup>regime</sup>, the logging industry, and the criminal Zionist enterprise threatening the well-being of humanity and the planet.

Do what is right in God's eyes;

Be a custodian of righteousness.

Do not succumb to bribery, threat, or  
blackmail. I'll pray for the salvation of your soul.

Peace be with you,

Keith Erickson
