

# Public Comment Form

Revising the BLM's Resource Management Plans in Western Oregon

RECEIVED

JAN 11 2008

\* - All Lands public are not to be turned to a closed one-sided thinking use. People whom ride are individually responsible yes, but are typically riding w/ a group or w/ one other person. This situation promotes one or the other riders to hold the others accountable. Which is taking care and not leaving destroyed land. Let us use the Public Land (Means open for all use) not one group or the other favored especially. Those who use Tax payor money grants for study to close things against the people who are actually helping them fund their study (this is wrong) I guarantee the riders and their families would actually help more w/ trails & maintenance if we ~~were~~ aren't in fear of losing ~~our~~ our rights to use the land after all the hard work. Now there's something to think about.

Sincerely, *J. Dawson*
