Revising the BLM's Resource Management Plans in Western Oregon

RECEIVED

JAN 11 2008

Management means manage - not closure.  
 All 13 areas should be left open. Our public lands are becoming an endangered species. Public lands provide healthy family recreation in Oregon. Closure simply gives easy way out to avoid management. Closure will cause more population to be crammed into smaller recreation areas creating an even greater impact on areas left open. Please work with MRA to come up with reasonable management programs not just put up yet another date! out-of-state people with money and plans to develop should not steal our public lands from us and our children. They chose to live where they do and need to learn to accept what they moved near. Share the Land. Keep them Public!
