Re: BLM Western Oregon Plan Revisions

Dear BLM:

I say NO, NO, NO to the WOPR Plan!

I live near the lands included in this plan and what happens there is very important to me.

I am shocked at the direction the Bush Administration is proposing for this area.
It is illegal - it violates the Endangered species and Clean water Acts and other laws.

It will contribute to global warming, and fire danger.

Using the old growth forests in the way proposed is not sustainable economically.

It harms our clean water.

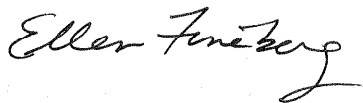

It would scar our landscape and hurt what makes life in Oregon so special.
Do not clear cut our national treasures!

It will make our planet less habitable and healthy for our children!

I ask that you protect our old-growth forests and focus your management on thinning
already existing plantations.

On so many counts, the WOPR plan is unbelievably ill advised.

Sincerely,

Ellen Fineberg
