

Highway 138. This is where river access for rafters is located. Also from there, an easy 0.8 mile hike leads to the 50-foot Susan Creek waterfall.

There are interpretive programs on most Saturday evenings throughout the summer. Bureau of Land Management campground hosts are on duty.

Directions to the Site

Travel 29.5 miles east of Roseburg on Highway 138.

Know Before You Go

There are 29 individual campsites available on a first-come, first-served basis. For use of this fee site, please contact the Roseburg Bureau of Land Management District Office for current rates and availability.

Disabled access within the Susan Creek Campground is well-developed throughout the area, including campsites, flush restrooms and shower facilities, and several nature trails with river overlooks. The Susan Creek Campground opens in late April and closes in mid November.

A voluntary donation is requested for use of the showers to help fund their upkeep and cleaning. Pets are allowed in the campground, but must be kept on a leash. Each campsite includes vehicle parking, a picnic table, and plenty of beautiful trees.

One-half mile downstream is the Susan Creek day-use area. There is on fee. Pets are not allowed.

Welcome to Susan Creek Campground

Susan Creek Campground is well known for its majestic forest setting along the emerald-green waters of the North Umpqua Wild and Scenic River. Well-developed trails on both the east and the west ends of the campground wind through tall trees and lush green understories providing views of wildlife such as the resident black-tail deer and soaring osprey. Anglers from across the country find this a popular destination thanks to the presence of steelhead. Fishing on this stretch of the river is limited to fly-fishing only. The river also attracts swimmers and whitewater rafters and kayakers.
