

January 22 Amendment Sycamore Cabin

A Proposal to Increase a Rental Fee Under the Forest Service Arizona Cabin Rental “Rooms With a View” Program

The attached news article from the Verde Valley News of December 8, 2006 is presented as additional information for the proposal to increase the rental fee at Sycamore Cabin from \$100 per night to \$125 per night. At the December REA Working Group and RAC meetings, it was noted that a requirement that a fee notice be published in a local newspaper had not been met for the Sycamore Cabin fee increase proposal. The proposal was otherwise accepted, with final approval to come at the next Working Group and RAC meetings if a notice was published in the meantime. The attached news article should fulfill the published notice requirement of the FLREA and the stipulation from the RAC. This additional information should result in final review and approval of the rate increase.
