Dear Reader:

Attached for your review and comment is the Draft Environmental Impact Statement (EIS) for the Little Snake Resource Management Plan (RMP). The alternatives described in this document have been designed to resolve land management issues that were identified through the planning process, and to provide a basis for comparison of the impacts associated with each alternative. The analyses of the environmental consequences of implementing each of the alternatives are also included in the document.

Open house meetings on the Draft EIS will be held at a time and date to be determined. The purpose of the open house meetings is to give the public an opportunity to discuss and comment on the Draft EIS. Written comments will also be accepted at the open house meetings. Open house meetings and any other public involvement activities will be announced at least 15 days in advance through public notices, media news releases, or mailings.

We invite you to comment on the Draft EIS. A 90-day comment period will begin with the date the Environmental Protection Agency (EPA) publishes the filing of this Draft EIS in the Federal Register. Please send your written comments to:

Jeremy Casterson
Planning Coordinator
