

Draft Alternative Travel Management Network System Objectives

- **Alternative 1** – Exceed Land Health Standards and maximize resource protection while providing a minimal level of travel opportunities and public access
- **Alternative 2** – Strive to meet Land Health Standards, improve resource protection, and provide quality travel opportunities/experiences along with adequate and appropriate public access
- **Alternative 3** – Strive to meet Land Health Standards with minimum required resource protection and provide emphasis on single-use quality travel opportunities along with adequate and appropriate public access.
- **Alternative 4** – Strive to meet Land Health Standards with minimum required resource protection and emphasis on multiple-use travel opportunities and public access.
