PLAN CONFORMANCE REVIEW: The Proposed Action is subject to and has been reviewed for conformance with the following plan (43 CFR 1610.5, BLM 1617.3):

Name of Plan: Kremmling Resource Management Plan (RMP), Record of Decision (ROD)

Date Approved: December 1984 (updated February 1999)

Decision Number/Page: Livestock grazing pages 6 through 8, as amended

The Proposed Action has been reviewed for compliance with this plan (43 CFR 1610.5, BLM 1617.3)

CATEGORICAL EXCLUSION REVIEW: The Proposed Action qualifies as a categorical exclusion under 516 DM 6, Appendix 5, Section 5.4, D (1) “*Approval of Transfer Grazing Preference*”. None of the following extraordinary circumstances in 516 DM 2, Appendix 2, apply.

Extraordinary Circumstances	Yes	No
2.1 Have significant impacts on public health or safety		X
2.2 Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments; migratory birds; and other ecologically significant or critical areas.		X
2.3 Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources [NEPA section 102(2)(E)].		X
2.4 Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.		X
2.5 Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.		X
2.6 Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.		X
2.7 Have significant impacts on properties listed, or eligible for listing, on the National Register of historic Places as determined by either the bureau or office.		X
2.8 Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species.		X
2.9 Violate a Federal Law, or a State, local, or tribal law or requirement imposed for the protection of the environment.		X

2.10 Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898).		X
2.11 Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007).		X
2.12 Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112). REMARKS:

Cultural Resources: Past actions have resulted in a cultural resource inventory to determine if those actions would cause potential adverse affects to known and unknown cultural resource sites from livestock grazing, motorized travel, and recreational use. When project undertakings are identified, a cultural resource inventory would be conducted to determine if sites are present and their eligibility, project effects, and mitigation requirements if necessary.

Native American Religious Concerns: Consultation was completed for the original allotment renewal. Future undertakings would require tribal consultation to identify traditional cultural properties.

Threatened and Endangered Species: The proposed transfer would not impact Endangered, Threatened, or Sensitive Species.

COMPLIANCE PLAN: Compliance with the renewed livestock grazing permit and its associated terms and conditions would be accomplished through the Kremmling Field Office Range Management Program. Livestock grazing would be monitored by the range staff and other area personnel, as appropriate, to ensure compliance. The Kremmling Field Office Range Monitoring Plan would be used to schedule periodic utilization checks, collect trend data, and evaluate allotment condition. When activity plans have been developed covering an allotment,

monitoring methods and schedules included in them would be applied to the allotment. Changes would be made to the permit, based on monitoring, when changes are determined necessary to protect land health.

ATTACHMENTS: Livestock Grazing Permit # 051763 with Standard Terms and Conditions.

DECISION AND RATIONALE: I have reviewed this CER and have decided to implement the proposed action.

This action is listed in the Department Manual as an action that may be categorically excluded. I have evaluated the action relative to the 12 criteria listed above and have determined that it does not represent an extraordinary circumstance and is, therefore, categorically excluded from further environmental analysis.
