**B. Land Use Plan Conformance**

This action conforms to the Kremmling Resource Management Plan (RMP), Record of Decision (ROD)

**Date Approved/Amended:** December 19, 1984; Updated February 1999

The approval of a right-of-way is clearly consistent with the RMP objectives and decisions as follows: Provide the opportunity to utilize public lands for development of facilities which benefit the public, while considering environmental and agency concerns.

**C. Compliance with the National Environmental Policy Act**

The action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E., (9): Renewals and assignments of leases, permits or rights-of-way where no additional rights are conveyed beyond those granted by the original authorizations.

This categorical exclusion is appropriate for this action because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed, and none of the extraordinary circumstances described in 516 DM 2, Appendix 2 apply (see attached).

I considered the quality of the power line and the reclamation after the construction and found no potential for significant impact.

## **Decision Record for a Categorically Excluded Action**

### **Introduction and Background**

Mountain Parks Electric, Inc. (MPEI) was issued a power transmission Right-of-Way (ROW) on November 12, 1981 which expires on November 11, 2011. MPEI has applied for a renewal of this ROW for the three phase power line. This line supplies power to private property surrounding BLM land. The right-of-way is 20 feet wide by 6300 feet long. The access comes off of Grand County Road 56. No new ground disturbance would occur.

### **Decision and Rationale**

I have decided to implement the proposed action for the renewal of COC-33748. This action is needed to provide electricity to private property surrounding public land. In addition, I have reviewed the plan conformance statement and have determined that the proposed action is in conformance with the approved land use plan and that no further environmental analysis is required.

### **Compliance with Laws, Regulations, Policies and Land Use Plans**

The action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E., (9): Renewals and assignments of leases, permits or rights-of-way where no additional rights are conveyed beyond those granted by the original authorizations.

The Proposed Action is in conformance with the Record of Decision for the Kremmling Resource Management Plan approved in 1984 and updated in 1999, and with the land use plan terms and conditions as required by 43 CFR 1610.5-3(a).

### **Administrative Remedies**

Administrative remedies may be available to those who believe they will be adversely affected by this decision. Appeals may be made to the Office of Hearings and Appeals, Office of the Secretary, U.S. Department of Interior, Board of Land Appeals (Board) in strict compliance with the regulations in 43 CFR Part 4. Notices of appeal must be filed in this office within 30 days after publication of this decision. If a notice of appeal does not include a statement of reasons, such statement must be filed with this office and the Board within 30 days after the notice of appeal is filed. The notice of appeal and any statement of reasons, written arguments, or briefs must also be served upon the Regional Solicitor, Pacific Southwest Region, U.S. Department of Interior, 2800 Cottage Way, E-1712, Sacramento, CA 95825.
