**DOCUMENTATION OF LAND USE PLAN
CONFORMANCE AND NEPA ADEQUACY**

NUMBER: CO-100-2006-097DNA

PROJECT NAME: November 2006 Oil & Gas Leasing, Little Snake Field Office

LEGAL DESCRIPTION: See Exhibit A

A. Describe the Proposed Action

The proposal is to lease, for potential oil and gas exploration and production, approximately 80,565 acres of Federal mineral estate within the Little Snake Field Office Area. The US Bureau of Land Management (BLM) and private landowners manage the surface estate. The mineral estate is administered by the BLM. Sixty-nine parcels of varying sizes are recommended to be leased. (See Exhibit A) All of the acreage is in Moffat and Routt Counties. The legal descriptions and applicable land use stipulations are identified in Exhibit A. The parcels identified in Exhibit A are proposed to be included in the upcoming November 2006 competitive lease sale.

As part of the Little Snake Field Office (LSFO) review, parcels are reviewed to make sure the appropriate stipulations will be attached at the time of the lease sale. Parcels 3808, 3810, 3818, 3811, 3815, 3762, 3819, 3644, 3778, 3789, 3779, 3790, 3712, 3739, 3740, 3710, 3711, 3793, 3801, 3807, 3809, 3780, 3814, 3708, 3709, 3794, 3705, 3707, 3813, 3742, 3743, 3795, 3823, 3824, 3816, 3812, 3804, 3805, 3825, 3631, 3817, 3802, 3803, 3827, 3637, 3638, 3639, 3640, 3641, 3749, 3763, 3748, 3820, 3649, 3745, 3642, 3650, 3746, 3747, 3704, 3764, 3765, 3652, 3653, 3659, 3660, 3661, 3756, and 3703 recommended for leasing have the correct stipulations identified.

B. Land Use Plan (LUP) Conformance

LUP Name: Little Snake Resource Area, Resource Management Plan (RMP)/EIS and Record of Decision (ROD)

Date Approved: April 26, 1989

Final RMP/EIS, September 1986

Draft RMP/EIS, February 1986

The proposed action implements the LUPs Planned Action objective on Page 8 of the ROD to allow oil and gas leasing with required stipulations.

C. Identify applicable NEPA documents and other related documents that cover the proposed action.

Colorado Oil and Gas Leasing & Development Final EIS Plan Amendment

Date Approved: October 1991

D. NEPA Adequacy Criteria

1. Is the current proposed action substantially the same action (or is a part of that action) as previously analyzed? Is the current proposed action located at a site specifically analyzed in an existing document?

Yes, the proposed lease parcels are within the area analyzed by the RMP and this action is the same as proposed there in. That action was to make Federal oil and gas resources available for leasing with standard stipulations or, where necessary add special stipulations including no surface occupancy, avoidance, or timing restrictions.

According to the Tenth Circuit Court of Appeals, site-specific NEPA analysis is not possible absent concrete proposals. Filing of an Application for Permit to Drill is the first useful point at which a site-specific environmental appraisal can be undertaken. (Park County Resource Council, Inc. v. U.S. Department of Agriculture, 10th Cir., April 17, 1987). In addition, the Interior Board of Land Appeals has decided that, BLM is not required to undertake a site-specific environmental review before issuing an oil and gas lease when it previously analyzed the environmental consequences of leasing the land. (Colorado Environmental Coalition Et AL., IBLA 96-243, decided June 10, 1999).

2. Is the range of alternatives analyzed in the existing NEPA document(s) appropriate with respect to the current proposed action, given current environmental concerns, interests, and resource values?

Yes, the alternatives analyzed in the RMP included Continuation of Present Management, Standard Terms and Conditions, and the Proposed Action. They provided a broad range of alternatives, which in our judgment adequately address current environmental concerns, interests, and resource values.

3. Is the existing analysis valid in light of any new information or circumstances?

Yes, the existing 1991 EIS/RMP Amendment is valid. In February of 2003, the Routt National Forest amended the "Routt National Forest Rational for the Designation of Lynx Analysis Units (LAU) and Lynx Habitat Mapping Criteria" to incorporate changes in the LAU boundaries to include BLM, state of Colorado, and private lands that are adjacent to Routt National Forest LAUs. The amendment was conducted in order to allow land managers to consider adjacent

administrative units when making land use decisions. BLM managed lands that were believed to contain lynx habitat adjacent to Routt National Forrest LAUs were incorporated into the Routt National Forest LAUs.

Four proposed lease parcels are within or adjacent to mapped Canada lynx habitat. Parcels 3644 and 3780 are within LAUs and parcels 3789 and 3790 are adjacent to a LAU. While species specific stipulations for lynx are not analyzed in 1991 EIS, there is a Threatened and Endangered Species Stipulation which alerts lessee of potential habitat for a threatened, endangered, candidate, or other special status plant or animal. This stipulation informs the lessee that the lease may contain plants, animals or their habitats that are determined to be threatened or endangered or other special status. It informs the lessee that the BLM may require modifications or disapprove proposed activity that is likely to result in jeopardy to a threatened or endangered species. It also states the BLM will not approve any ground disturbing activity that may affect any such species or critical habitat until it completes any required conference or consultation required under the Endangered. Species Act. All parcels analyzed with this DNA and offered in this lease sale will have this stipulation attached.

4. Do the methodology and analytical approach used in the existing NEPA document(s) continue to be appropriate for the current proposed action?

The methodology and analytical approach used in the 1991 leasing EIS is appropriate for this proposed action. The use of new methodologies or approaches would result in the same impact conclusion and leasing decisions.

5. Are the direct and indirect impacts of the current proposed action substantially unchanged from those identified in the existing NEPA document(s)? Does the existing NEPA document analyze site-specific impacts related to the current proposed action?

The direct and indirect impacts of the current proposed action are substantially unchanged from those identified in the 1991 leasing EIS. (See also D.1. above.)

6. Are the cumulative impacts that would result from implementation of the current proposed action substantially unchanged from those analyzed in the existing NEPA document(s)?

Yes, the actual cumulative impacts are well within the parameters addressed in the 1991 Oil & Gas Leasing Plan Amendment on pages 2-27 thru 4-29. To date, the amount of surface disturbance on public land has been less than predicted and added to past present and reasonably foreseeable actions of BLM and others, the impact prediction remains accurate. Implementing the proposed action will not substantially change the cumulative impact analysis.

7. Are the public involvement and interagency review associated with existing NEPA document(s) adequate for the current proposed action?

Yes. Full public review occurred during the RMP/EIS process. The current proposed lease sale would fall under the RMP/EIS. In addition, a notice of competitive lease sale is posted in all

BLM and USFS offices approximately 45 days prior to the sale or on the BLM web site, www.co.blm.gov/oilandgas/leasinfo.htm. It is also available through the mail for a fee to those that request it and make arrangements to pay the fee.

E. Interdisciplinary Analysis: Identify those team members conducting or participating in the NEPA analysis and preparation of this document.

Name	Title	Resource	Initials	Date
Duane Johnson	Environmental Coordinator	NEPA	DJ	08/28/06
Barb Blackstun	Natural Resource Specialist	Soil, Air, and Water	BB	08/28/06
Tim Novotny	Wildlife Biologist	Wildlife, Wetlands/Riparian Zones	TN	08/28/06
Jim McBrayer	Recreation Planner	WSA, W&S Rivers	JDM	07/28/06
Gary Collins	Archaeologist Technician	Cultural Resources & Native American Religious Concerns	GC	08/11/06

Remarks:

Cultural Resources: None known. Site specific surveys, evaluation and mitigation will be completed prior to the issuance of any permit.

Native American Religious Concerns: None known. Further tribal consultation will occur prior to the issuance of any permit.

T&E Species: Two parcels are within mapped Canada lynx habitat, #3644 and #3780. Two parcels are adjacent to mapped Canada lynx habitat, #3789 and 3790.

Conclusion

Based on the review documented above, I conclude that this proposal conforms to the applicable land use plan and that the NEPA documentation fully covers the proposed action and constitutes BLM’s compliance with the requirements of NEPA.

EXHIBIT A

**Legal descriptions & associated stipulations
Little Snake Field Office
November 2006 Oil & Gas Lease Sale**

THE FOLLOWING ACQUIRED LANDS ARE SUBJECT TO FILINGS IN THE MANNER SPECIFIED IN THE APPLICABLE PORTIONS OF THE REGULATIONS IN 43 CFR, SUBPART 3120.

1. PARCEL ID: 3808 SERIAL #:

T. 0090N., R 0900W., 6TH PM

Sec. 29: Lot 16;

U.S. Interest 94.00%

Sec. 32: Lot 1-3,6-8,10;

U.S. Interest 94.00%

Moffat County

Colorado 314.570 Acres

All lands are subject to Exhibit CO-09 to protect big game winter habitat.

The following lands are subject to Exhibit CO-28 to protect riparian/wetland vegetation:

T. 0090N., R 0900W., 6TH PM

Sec. 29: Lot 16;

Sec. 32: Lot 1,2,6,7;

All lands are subject to Exhibit CO-30 to alert lessee of closure period for nesting sage grouse.

All lands are subject to Exhibit CO-34 to alert lessee of potential habitat for a threatened, endangered, candidate, or other special status plant or animal.

All lands are subject to Exhibit CO-39 to protect cultural resources.

PVT/BLM; CDO: LSRA

2. PARCEL ID: 3810 SERIAL #:
