Craig, CO 81625**

**DOCUMENTATION OF LAND USE PLAN
CONFORMANCE AND NEPA ADEQUACY**

NUMBER: CO-100-2007-031 DNA

PROJECT NAME: May 2007 Oil & Gas Leasing, Little Snake Field Office

LEGAL DESCRIPTION: See Exhibit A

A. Describe the Proposed Action

The proposal is to lease, for potential oil and gas exploration and production, approximately 20,890 acres of Federal mineral estate within the Little Snake Field Office Area. The US Bureau of Land Management (BLM) and private landowners manage the surface estate. The mineral estate is administered by the BLM. Twenty-three parcels of varying sizes are recommended to be leased. (See Exhibit A) All of the acreage is in Moffat County. The legal descriptions and applicable land use stipulations are identified in Exhibit A. The parcels identified in Exhibit A are proposed to be included in the upcoming May 2007 competitive lease sale.

As part of the Little Snake Field Office (LSFO) review, parcels are reviewed to make sure the appropriate stipulations will be attached at the time of the lease sale. Parcels 3922, 3923, 2924, 3925, 3929, 3945, 3970, 3954, 3951, 3952, 3953, 3955, 3956, 3957, 3959, 3962, 3963, 3966, 3961, 3968, 3960, 3943, and 3969 recommended for leasing have the correct stipulations identified.

B. Land Use Plan (LUP) Conformance

LUP Name: Little Snake Resource Area, Resource Management Plan (RMP)/EIS and Record of Decision (ROD)

Date Approved: April 26, 1989

Final RMP/EIS, September 1986

Draft RMP/EIS, February 1986

The proposed action implements the LUPs Planned Action objective on Page 8 of the ROD to allow oil and gas leasing with required stipulations.

C. Identify applicable NEPA documents and other related documents that cover the proposed action.

Colorado Oil and Gas Leasing & Development Final EIS Plan Amendment

Date Approved: October 1991

D. NEPA Adequacy Criteria

1. Is the current proposed action substantially the same action (or is a part of that action) as previously analyzed? Is the current proposed action located at a site specifically analyzed in an existing document?

Yes, the proposed lease parcels are within the area analyzed by the RMP and this action is the same as proposed there in. That action was to make Federal oil and gas resources available for leasing with standard stipulations or, where necessary add special stipulations including no surface occupancy, avoidance, or timing restrictions.

According to the Tenth Circuit Court of Appeals, site-specific NEPA analysis is not possible absent concrete proposals. Filing of an Application for Permit to Drill is the first useful point at which a site-specific environmental appraisal can be undertaken. (Park County Resource Council, Inc. v. U.S. Department of Agriculture, 10th Cir., April 17, 1987). In addition, the Interior Board of Land Appeals has decided that, BLM is not required to undertake a site-specific environmental review before issuing an oil and gas lease when it previously analyzed the environmental consequences of leasing the land. (Colorado Environmental Coalition Et AL., IBLA 96-243, decided June 10, 1999).

2. Is the range of alternatives analyzed in the existing NEPA document(s) appropriate with respect to the current proposed action, given current environmental concerns, interests, and resource values?

Yes, the alternatives analyzed in the RMP included Continuation of Present Management, Standard Terms and Conditions, and the Proposed Action. They provided a broad range of alternatives, which in our judgment adequately address current environmental concerns, interests, and resource values.

3. Is the existing analysis valid in light of any new information or circumstances?

Yes, the existing RMP/EIS is valid. We are not aware of any new information or circumstances that would require modification of the analysis. The impacts analyzed in the RMP/EIS are greatly in excess of those that have actually occurred to date.

4. Do the methodology and analytical approach used in the existing NEPA document(s) continue to be appropriate for the current proposed action?

Yes, the methodology and analytical approach used in the 1991 leasing EIS is appropriate for this proposed action. The use of new methodologies or approaches would result in the same impact conclusion and leasing decisions.

5. Are the direct and indirect impacts of the current proposed action substantially unchanged from those identified in the existing NEPA document(s)? Does the existing NEPA document analyze site-specific impacts related to the current proposed action?

Yes. The direct and indirect impacts of the current proposed action are substantially unchanged from those identified in the 1991 leasing EIS. (See also D.1. above.)

6. Are the cumulative impacts that would result from implementation of the current proposed action substantially unchanged from those analyzed in the existing NEPA document(s)?

Yes, the actual cumulative impacts are well within the parameters addressed in the 1991 Oil & Gas Leasing Plan Amendment on pages 2-27 thru 4-29. To date, the amount of surface disturbance on public land has been less than predicted and added to past present and reasonably foreseeable actions of BLM and others, the impact prediction remains accurate. Implementing the proposed action will not substantially change the cumulative impact analysis.

7. Are the public involvement and interagency review associated with existing NEPA document(s) adequate for the current proposed action?

Yes. Full public review occurred during the RMP/EIS process. The current proposed lease sale would fall under the RMP/EIS. In addition, a notice of competitive lease sale is posted in all BLM and USFS offices approximately 45 days prior to the sale or on the BLM web site, www.co.blm.gov/oilandgas/leasinfo.htm. It is also available through the mail for a fee to those that request it and make arrangements to pay the fee.

E. Interdisciplinary Analysis: Identify those team members conducting or participating in the NEPA analysis and preparation of this document.

Name	Title	Resource	Initials	Date
Jeremy Casterson	Environmental Coordinator	NEPA	JC	02/08/07
Barb Blackstun	Natural Resource Specialist	Soil, Air, and Water	BB	02/03/07
Tim Novotny	Wildlife Biologist	Wildlife, Wetlands/Riparian Zones, T&E Animal Species	TMN	02/02/07
Jim McBrayer	Recreation Planner	WSA, W&S Rivers	JDM	01/17/07
Robyn Morris	Archaeologist	Cultural Resources & Native American Religious Concerns	RWM	01/19/07
Hunter Seim	Range Specialist	T&E Plant Species	JHS	01/17/07

Remarks

Cultural Resources: Any lease parcel may contain historic properties and/or resources protected under the National Historic Preservation Act (NHPA), American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, E.O.13007, or other statutes and executive orders. The BLM will not approve any ground disturbing activities that may affect any such properties or resources until it completes its obligations under applicable requirements of the NHPA and other authorities. The BLM may require modification to exploration or development proposals to protect such properties, or disapprove any activity that is likely to result in adverse effects that cannot be successfully avoided, minimized, or mitigated.

Native American Religious Concerns: None known. Further tribal consultation will occur prior to the issuance of any permit.

T&E Species: There are no federally listed threatened or endangered or BLM sensitive plant species present on any of the offered parcels. The following lands contain nesting habitat for bald eagle: Parcel 3923 - Sec. 23: Lot 1, 8; Sec. 25: Lot 2, 7, 12, 14 and Parcel 3924 - Sec. 21: Lot 1, 2, 7-10. These areas may require consultation with the USFWS under section 7 of the Endangered Species Act prior to exploration and development of these areas. Restrictions on development of these areas may occur as a result of the consultations.

Conclusion

Based on the review documented above, I conclude that this proposal conforms to the applicable land use plan and that the NEPA documentation fully covers the proposed action and constitutes BLM's compliance with the requirements of NEPA.

Sec. 21: Lot 5-7,9-16;
Sec. 28: Lot 1-4,9-16;

The following lands are subject to Exhibit CO-22 to protect bald eagle nesting habitat:

T. 0110N., R 0910W., 6TH PM
Sec. 21: Lot 1,2,7-10;

All lands are subject to Exhibit CO-30 to alert lessee of closure period for nesting sage grouse.

All lands are subject to Exhibit CO-34 to alert lessee of potential habitat for a threatened, endangered, candidate, or other special status plant or animal.

All lands are subject to Exhibit CO-39 to protect cultural resources.

New LS – Lease Notice: There are known cultural resources eligible to the National Register of Historic Places within this lease parcel. Class III reconnaissance surveys shall be conducted by an accredited archaeologist approved by the Authorizing Officer prior to surface disturbing activities. The inventory would be used to prepare mitigating measures to reduce the impacts of surface disturbances on the affected cultural properties. These mitigating measures may include, but are not limited to evaluative testing, data recovery, and relocation of roads, well pads, and facilities.

New LS – Lease Notice: There are known cultural resources eligible to the National Register of Historic Places within this lease parcel. Class III reconnaissance surveys shall be conducted by an accredited archaeologist approved by the Authorizing Officer prior to surface disturbing activities. The inventory would be used to prepare mitigating measures to reduce the impacts of surface disturbances on the affected cultural properties. These mitigating measures may include, but are not limited to evaluative testing, data recovery, and relocation of roads, well pads, and facilities.
