

Documentation of Land Use Plan Conformance and NEPA Adequacy (DNA)
U.S. Department of the Interior Bureau of Land Management
White River Field Office, Colorado

Note: This Worksheet is to be completed consistent with the policies stated in the Instruction Memorandum entitled "Documentation of Land Use Plan Conformance and National Environmental Policy Act (NEPA) Adequacy" transmitting this Worksheet.

NUMBER: CO-110-04-016-DNA

CASEFILE/PROJECT NUMBER: TBD

PROJECT NAME: February 2004 O&G Lease Sale

LEGAL DESCRIPTION: See Attached

APPLICANT: BLM-Colorado State Office

A. Describe the Proposed Action

Under the proposed action, 42 parcels of land containing federal minerals would be offered for sale in February of 2004. These parcels comprise 59,411.55 acres (m/l). Each lease would be issued subject to stipulations identified in the ROD for the White River RMP. Additional, site specific analyses would take place upon submission of individual Applications for Permit to Drill (APDs).

B. Land Use Plan (LUP) Conformance*

White River Resource Area, Resource Management Plan (RMP)/EIS and Record of Decision (ROD) Date Approved July 1, 1997

Other Document: [] Date Approved: []

Other Document: [] Date Approved: []

*List applicable LUPs (e.g., Resource Management Plans and activity, project, management, or program plans, or applicable amendments thereto)

The proposed action is in conformance with the applicable LUPs because it is specifically provided for in the following LUP decisions (listed by page number from the ROD/RMP):

See page 2-5 of the White River ROD/RMP

The proposed action is in conformance with the LUP, even though it is not specifically provided for, because it is clearly consistent with the following LUP decisions (objectives, terms, and conditions):

[]

C. Identify applicable NEPA documents and other related documents that cover the proposed action.

List by name and date all applicable NEPA documents that cover the proposed action.

Document: Environmental Assessment for Resource Area Wide use of Magnesium Chloride and Lignin Sulfonate (CO-WRFO-02-86EA) Date Approved: May 20, 2002

Document: White River Resource Area Proposed Resource Management Plan and Final EIS
Date Approved: 05/29/1996

Document: [redacted] Date Approved: [redacted]

List by name and date other documentation relevant to the proposed action (e.g., biological assessment, biological opinion, watershed assessment, allotment evaluation, and monitoring report).

Document: [redacted] Date Approved: [redacted]

Document: [redacted] Date Approved: [redacted]

D. NEPA Adequacy Criteria

1. Is the current proposed action substantially the same action (or is a part of that action) as previously analyzed? Is the current proposed action located at a site specifically analyzed in an existing document?
Documentation of answer and explanation:

Yes. With the exception of certain formally identified Wilderness Study Areas, the White River PRMP/FEIS provides for oil/gas leasing throughout the resource area, subject to stipulations and conditions of approval identified in Appendix A, and Appendix B to the ROD/RMP. Stipulations specific to the lands considered for leasing are attached to this DNA.

2. Is the range of alternatives analyzed in the existing NEPA document(s) appropriate with respect to the current proposed action, given current environmental concerns, interests, and resource values?

Documentation of answer and explanation:

Yes, the range of alternatives in the PRMP/FEIS remains adequate for the proposed action.

3. Is the existing analysis valid in light of any new information or circumstances?

Documentation of answer and explanation:

Yes, the existing analysis in the PRMP/FEIS remains adequate for the proposed action.

4. Do the methodology and analytical approach used in the existing NEPA document(s) continue to be appropriate for the current proposed action?

Documentation of answer and explanation:

The methodology and analytic approach used in the PRMP/FEIS are appropriate for the current proposed action.

5. Are the direct and indirect impacts of the current proposed action substantially unchanged from those identified in the existing NEPA document(s)? Does the existing NEPA document analyze site-specific impacts related to the current proposed action?

Documentation of answer and explanation:

The direct and indirect impacts of the proposed action are adequately addressed in the PRMP/FEIS.

6. Are the cumulative impacts that would result from implementation of the current proposed action substantially unchanged from those analyzed in the existing NEPA document(s)?

Documentation of answer and explanation:

The cumulative impacts of the proposed action are within the range of impacts analyzed in the PRMP/FEIS.

7. Are the public involvement and interagency review associated with existing NEPA document(s) adequate for the current proposed action?

Documentation of answer and explanation:

Yes, the public, interested groups, and other agencies, were fully involved in the development of the PRMP/FEIS.

E. Interdisciplinary Analysis:

The proposed action was presented to the White River Interdisciplinary Team on **11/18/2003**
(Date)

Identify those team members conducting or participating in the NEPA analysis* and preparation of this worksheet.

<u>Name</u>	<u>Title</u>
A list of attendees at the Interdisciplinary Team Meeting is on file at the White River Field Office	

* See the RMP for a complete list of the team members participating in the preparation of the original NEPA document.

F. Mitigation Measures: List any applicable mitigation measures that were identified, analyzed, and approved in relevant LUPs and existing NEPA document(s). List the specific mitigation measures or identify an attachment that includes those specific mitigation measures. Document that these applicable mitigation measures must be incorporated and implemented.

See Attached

Conclusion

Based on the review documented above, I conclude that this proposal conforms to the applicable land use plan and that the NEPA documentation fully covers the proposed action and constitutes BLM's compliance with the requirements of NEPA

Note: If you found that one or more of these criteria is not met, you will not be able to check this box.
