**Errata Notice**

September 5, 2008

**ADDENDUM**

Please note the following additions to the Bureau of Land Management-Eastern States' (BLM-ES) Notice of Competitive Lease Sale, Oil and Gas, dated August 12, 2008. The oral auction is scheduled for September 25, 2008.

The following Huron-Manistee National Forest Standard Lease Stipulations were inadvertently omitted from the lease sale notice; and, is hereby made a part of the lease terms for **Parcel Nos. ES-045-09/08 MIES 55467 thru ES-086-09/08 MIES 55508**:

**Huron-Manistee National Forest  
Standard Lease Stipulations**

The lessee is notified and agrees:

All work and any operations authorized under this permit shall be done according to an approved operating plan on file with the Huron-Manistee National Forest at the appropriate District Ranger Office and/or Supervisor's Office at 1755 S. Mitchell St., Cadillac, MI 49601. Plans generally require a minimum of 45 days for Forest Service review (see Lease Notice No. 5). Bureau of Land Management must also review and also approve.

Operating plan will contain information the Forest Officer determines reasonable for assessment of (1) public safety, (2) environmental damage, and (3) protection for surface resources. Content of such plans will vary according to location and type of activity and may contain:

1. Steps taken to provide public safety.
2. Location and extent of areas to be occupied during operations.
3. Operation methods including size and type of equipment.
4. Capacity, character, standards of construction and size of all structures and facilities to be built.

5. Location and size of areas where vegetation will be destroyed or soil lay bare.
6. Steps taken to prevent and control soil erosion.
7. Steps taken to prevent water pollution.
8. Character, amount, and time of use of explosives or fire, including safety precautions during their use.
9. Program proposed for rehabilitation and revegetation of disturbed land.

Copies of all permits obtained from State or Federal agencies pertaining to work might be required. Archeological studies, if required, will accompany plan.

The Forest Supervisor or his/her designated agent has authority to temporarily suspend or modify operations in whole or in part due to emergency forest conditions such as high fire danger or other unsafe situations.

The lessee must keep the District Ranger informed about progress of operations to the extent reasonably necessary for assuring public safety. This is especially important with geophysical inventory and testing activities because of their mobile nature. The District Ranger will alert the lessee to circumstances, which may affect safe and efficient conduct of work activities.

Terms of this lease are considered violated if not done according to these stipulations.

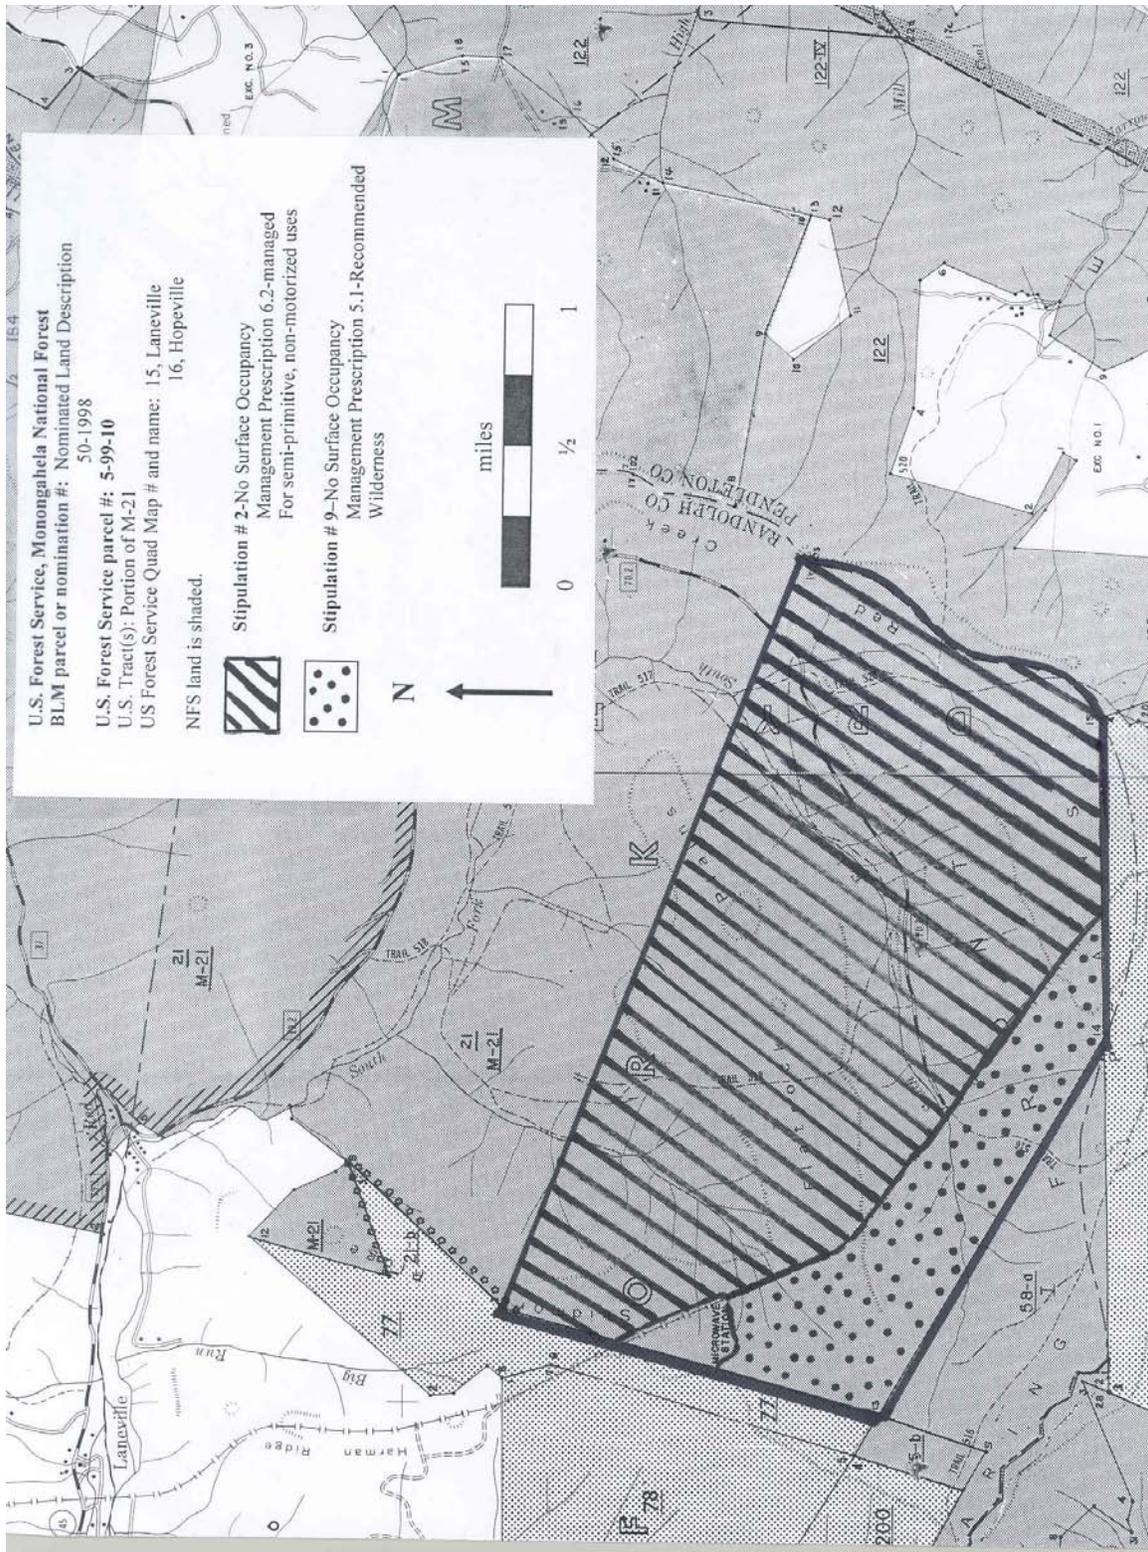

See also Special Stipulations and Notifications.

F.S. Lease Stipulation #9, for **Parcel No. ES-087-09/08 WVES 55509**, was inadvertently omitted from the lease sale notice; and, is hereby made of part of the lease terms for this parcel:

**Monongahela N.F., West Virginia**  
**Lease Stipulation #9**

The area shown on the attached map is designated Management Prescription 5.1, Recommended Wilderness. No surface occupancy or use will be permitted.
