**Federal Government Leases Land in Arkansas, Louisiana and Ohio
for Oil and Gas Exploration**

Ninety-one parcels of Federal land generated a total revenue of \$464,222.50 through a competitive auction of oil and gas leases conducted by the U.S. Department of the Interior's Bureau of Land Management (BLM) on Thursday, September 25, 2003, in Springfield, Virginia.

The BLM has responsibility for leasing the federally-owned minerals located in the 31 states east of and adjoining the Mississippi River and offers selected parcels at quarterly competitive auctions. Regulations require the bidding to open at \$2 per acre. Carlton Oil Corporation paid \$4,356.00 for a 121-acre parcel in Monroe County, Ohio. Their bid of \$36.00 per acre was the highest per-acre bid of the auction.

Leases are awarded for a term of 10 years and as long thereafter as there is production of oil and gas in paying quantities. The Federal Government receives a royalty of 12½ percent of the value of production. Also, each State Government receives a 25 percent minimum share of the bonus bid and the royalty revenue from each lease issued in that state.

The next competitive oil and gas lease sale is scheduled for December 18, 2003. Visit our web site at www.es.blm.gov for more information about oil and gas lease sales and other BLM programs.
