**ES-064-06/01 MSES 51069 ACQ**

**ES-083-06/01 MSES 51091 ACQ**

These parcels are not subject to the following stipulation as originally advertised:

Successful bidder is required to take responsibility for the wells and other related facilities already on the property. They must reestablish production, use as a service well, temporarily abandon the well, or plug and restore the site and remove equipment within 60 days of lease issuance.

The parcels are subject to the following stipulation:

The lessee is required to take responsibility for the oil and gas wells and associated facilities existing on this lease. Wells must be returned to production, converted to service use or plugged along with removal of equipment and restoration of the well sites and associated facilities. Within 120 days of the effective date of this lease, all existing wells must be in a status accepted or approved by the BLM's Jackson Field Office and facilities must meet the requirements of applicable Onshore Orders. Should the wells not be in an accepted or approved status within 120 days and/or facilities are not be in compliance with requirements of the Onshore Orders within 120 days, the lessee will be required to post a \$10,000 bond for each such well and an additional \$10,000 bond for any facility not in compliance.
