Boise	2 S.	1 E.	29, 31 and 32		571
	2 S.	2 E.	5		

RATIONALE AND PLAN CONFORMANCE

This proposal conforms to the Kuna Management Framework Plan (MFP) and Snake River Birds of Prey NCA Management Plan. Further, the 2005 Normal Fire Emergency Stabilization and Rehabilitation Plan Environmental Assessment (EA #ID-090-2004-050), adequately covers the proposed action and constitutes BLM's compliance with the requirements of NEPA, as determined by DNA worksheet No. ID-110-2007-DNA-3523. My decision will result in the most economical and beneficial stabilization and rehabilitation effort for the affected vegetation and soil resources of the burned area.

DECISION

It is my decision to implement the Rimstep ES Plan, pending approval of funding. I have reviewed this plan conformance and NEPA compliance record and have determined that the proposed project is in conformance with the Kuna MFP and Snake River Birds of Prey NCA Management Plan, and that no further environmental analysis is required.
