

KITS

The Kit Section of this catalog only includes packing lists for kits that are built and refurbished at Billings Fire Cache. For other kit lists, refer to the NWCG NFES Catalog. Kits are also listed in the Alphabetical and Numeric Sections of this catalog. **Individual kit components are generally not available outside of the kits.**

All kits containing hazardous materials will be appropriately labeled and identified. MSDS's will be provided when required. All hazardous materials will be removed from kits that are shipped by commercial air freight.

All kits built at BFK follow National Fire Equipment Standards (NFES). The national standard kit packing lists have been developed with input from field user groups and have been identified as National Standard kits. This means that the kit is stocked by an NFES cache and is used on an interagency basis. All national standard kits will have a review year and change year indicated in the NWCG NFES catalog on the kit item page. Kits will not be changed for any reason except for safety reasons between the scheduled change years. Comments or suggestions for kits, including any ideas for new kits, should be forwarded to the closest geographical NFES cache manager. Comments for existing kits can include suggestions for additions or deletions.

Note that some kits in stock do not meet the current standards since they were built to previous kit standards; they will be updated to the current kit standards on an attrition basis upon return from incidents. A packing list is enclosed with each kit that reflects all of the component items. If there are discrepancies, contact the shipping cache or complete the evaluation form and return to the cache.

The Kit committee recommended changes for 2010 fire season for some kits and components. Normally caches have two years to implement changes after the kit committee makes changes. The new items and other changes can cost a large amount of money and have storage implications, so changes may not be implemented immediately.

Kit Changes for 2010 are:

- Chainsaw Kit
- Finance Section Kit
- Logistics Kit
- Incident Base Sign Kit
- Belt Weather Kit
- Cache Van
- Helicopter Support Kit
- MKIII Pump Kit
