

## Range of Management Ideas Based on Public Input, Resources, and Current Management

<b>Visitor Use, Services and Infrastructure</b>					
<b>Management Idea</b>	<b>Current Management</b>	<b>Range of Management Ideas</b>			<b>Other Ideas</b>
Recreation User Fees	\$6 fee charged per vehicle for overnight camping at Kipp Campground.	Annual fee to recreate within the Monument.	Annual fee to boat the Upper Missouri River.	Charge fees for overnight camping at developed recreation sites.	
Size of Groups Boating the Upper Missouri River	Groups of up to 50 people.	Maximum group size of 15 people. Larger groups would require a special recreation use permit.	Maximum group size of 25 people. Larger groups would require a special recreation use permit.	Maximum group size of 33 people. Larger groups would require a special recreation use permit.	
Use of Motorized Boats on the Upper Missouri River	Seasonal restriction on motorized use: Saturday before Memorial Day through the Sunday after Labor day.	Motorized boats restricted to no-wake speed all year or no motorized boats.	Motorized boats restricted to no-wake speed from June 15 to September 15 each season.	No restriction on any craft.	
User Allocation System (Permit System) for Boaters on the Upper Missouri River	No limit or restriction on the number of boaters.	Allocate boater use during peak periods of the year (June 15 through July 15) or when launches at Coal Banks Landing exceed 170 people in one day.	Allocate boaters throughout the season/year.	Develop measures to accommodate future increases in use (e.g. additional campsites and infrastructure) and do not develop an allocation system that restricts use.	
Special Recreation Use Permits (SRPs) Issued for Commercial Upper Missouri River Use	Limit the number of commercial boating permits to 23. Allow a non-permitted commercial user one trip per season.	No limit on the number of SRPs issued for commercial trips on the Upper Missouri River. Qualifying applicants would receive a permit.	Require commercial operators to attend a training course as a prerequisite to receiving an SRP to operate on the Upper Missouri.		
Special Recreation Use Permits (SRP) Issued for Commercial Upland Use	No limit.	Would not issue SRPs for any public land that does not have public access.	Limit the number of SRPs issued for hunting/tours.	Manage Commercial SRP (outfitters/user days) density in any given area of public land.	

**Visitor Use, Services and Infrastructure**

<b>Management Idea</b>	<b>Current Management</b>	<b>Range of Management Ideas</b>			<b>Other Ideas</b>
Campsite Classification System for the Upper Missouri River Based on Four Levels of Development	Developed Recreation Areas, Minimally Developed Recreation Areas, Undeveloped Recreation Areas, Dispersed Recreation Areas		Level 1, Developed Public Access Sites; Level 2, Developed Boat Camps; Level 3, Primitive Boat Camps; Level 4, Undeveloped public land		
Standards for River Based on Four Levels of Development	None.	Provide a diversity of camping opportunities.	Manage for Level 3 and 4 campsites only.	Provide additional Level 1 and 2 opportunities.	
Campsite Classification System for Upland Areas Based on Four Levels of Development	None.		Level 1, Developed Public Access Site; Level 2, Developed Campsites; Level 3, Undeveloped Vehicle Pullout Sites; Level 4, Primitive Campsites Not Accessible by Vehicle		
Standards for the Number and Level of Upland Campsites	BLM would not construct developed or undeveloped sites unless a partnership can be realized through local service organizations	Limited number of Level 1 or Level 2 sites in the upland areas to be located at current fishing reservoir or overlook sites.	Only Level 3 sites in the upland areas. Sites to be located on main artery/access or stem roads. Maximum distance from a road (either artery or stem) would be 300 feet. Limit number of Level 3 sites to 3 miles between sites. Sites would not be shown on a map. Level 4 sites would be unlimited but not shown on a map.	Develop ten Level 2 campsites on main artery roads in the upland areas. Level 2 sites would be a minimum of 5 miles apart. Level 2 sites would be shown on a map with information concerning level of development and opportunities associated with the site.	

### Visitor Use, Services and Infrastructure

Management Idea	Current Management	Range of Management Ideas			Other Ideas
Private Property and Recreation Activity	None.	Develop aggressive education program for visitors to the Monument.	Mandatory registration with stipulations pertaining to camping on public land.	Short-term (3- to 5-year) camping easements.	
Wildlife and Camping	Camping on islands on the Upper Missouri River is discouraged from April 1 to July 31.	Spatial measures would be developed to protect threatened and endangered species breeding, parturition, or nesting areas.	Camping would not be restricted with concern to threatened or endangered species' breeding, parturition, or nesting areas.	Seasonal timing restrictions would be developed to protect threatened and endangered species' breeding, parturition, or nesting areas.	
Wildlife and Recreation		Spatial measures would be developed to protect wildlife during sensitive periods (e.g. nesting, breeding periods) or in essential habitat (e.g. crucial winter range, lambing areas).	Seasonal timing restrictions would be developed to protect wildlife during sensitive periods (e.g. nesting, breeding periods) or in essential habitat (e.g. crucial winter range, lambing areas).	Recreational use would not be restricted with concern to wildlife.	
Special Uses (Trapping, Horn Hunting, Filming, Large Group Events, etc.)	Current management for some uses but not others.	Special land use permit required for all special activities.	Develop standards and indicators for levels of use.		
Potential Interpretative Sites	None.	Self-guided interpretation.	Fully developed interpretive sites.		
Wild and Scenic River Eligibility Study	Streams identified and eligibility study ongoing.
